Subject:—Noting of subject matters in correspondence.

No. TM/321.—20th December 1951.—A reference is invited to this office notification No. TM/291, dated the 16th June 1949 (published on page 1051 of Part I of the *Calcutta Gazette*, dated the 23rd June 1949), in which it was directed *inter alia* that the subject matter of the previous correspondences should invariably be stated in all reminders, etc., sent to this office. It is observed that in some cases reminders received in this office contain no subject matter at all, while in other cases the subject matter noted in the reminder is so brief that it cannot possibly be ascertained what the original letter was about. This causes much difficulty in this office in tracing out the original letter to which the reminders refer. All heads of offices under the audit control of this office and all Treasury Officers in West Bengal are therefore requested that while issuing reminders to this office, the contents of the previous reference should be noted briefly so as to admit of taking prompt action by this office. In cases where there is any previous reference from this office the number and date thereof should invariably be noted in all references made to this office. Reminders not showing particulars of the previous reference will be returned to the sender for furnishing the wanting information.

AWARD.

By order No. 1907Lab., dated the 26th March 1951, the Government of West Bengal, Department of Labour, referred to me for adjudication under sections 7 and 10 of the Industrial Disputes Act, 1947, the abovementioned dispute regarding the matters specified below:—

> "Whether the dismissal of the 3 persons mentioned was justified in the light of the previous records of the case. Whether the said persons are entitled to re-instatement or any other relief."

The dispute relates to the question of re-appointment of the 3 employees, viz., (1) Sri C. R. Paul, (2) Sri H. P. Das and (3) Sri N. K. Bhattacharyya, whose services were terminated by Messrs. McLeod & Co., Ltd., Managing Agents, Bhatkhawa Tea Estate (hereinafter referred to as the Company) under the following circumstances: -

In October 1949 there occurred a serious riot in the Bhatkhawa Tea Estate in which the Manager and the Assistant Manager as well as some members of the clerical staff including Sri N. K. Bhattacharyya were

assaulted by the rioters who were composed of manual workers of the garden. The police of Kalchini police-station made enquiries and sent up a number of manual workers of the garden who were tried and eventually convicted. During the investigation several employees of the Tea Estate who were witnesses to the incident, were examined by the police and cited witnesses for the prosecution on the basis of statements made by them before the investigating officer. Sri C. R. Paul, typist clerk, Sri H. P. Das, ration clerk, and Sri N. K. Bhattacharyya, Anti-malarial surveyor, were three of those witnesses cited by the police as witnesses to the incident. The trial was held in the Alipur Dooars Magistrate's Court in the district of Jalpaiguri. Before the trial commenced on the 2nd March 1950, the three employees in question made statements to the police prosecutor denying, contrary to their previous statements as recorded by the investigating officer, the fact of having recognised any of the persons accused of the crime. Sri C. R. Paul and Sri H. P. Das were not ultimately put on the box. Sri N. K. Bhattacharyya was, however, examined in Court as a witness for the prosecution, presumably in consideration of the fact that he was one of the victims of the assault committed during the riot. But he denied having recognised his assailants, whereupon he was cross-examined by the prosecution with the permission of the Court. On the next day, *i.e.*, on the 3rd March 1950 the officer-in-charge of Kalchini police-station who was the investigating officer in that case, wrote a letter to the then Manager of the Bhatkhawa Tea Estate telling him that Sri C. R. Paul and Sri H. P. Das had "refused to disclose the truth before the Magistrate" and the other, Sri N. K. Bhattacharyya, "gave false evidence before the Magistrate in favour of the accused persons". The letter concluded by saying "in the circumstances the conduct of your abovenamed 3 employees are far from satisfactory and I doubt in their honesty", and "so in view of the future safety of your garden I consider it necessary that the authority should take action against them". On the 16th March 1950 the Acting Manager Mr. J. Poulton issued letters calling upon Sri C. R. Paul and Sri H. P. Das to explain why they had refused to disclose the truth before the Magistrate as the police had reported, and calling upon Sri N. K. Bhattacharyya to explain why he had given false evidence in Court as stated in the police report. The clerks concerned submitted their explanations on the following day as required by the Manager's letter. In their explanation Sri C. R. Paul and Sri H. P. Das stated that they were surprised to know that they had refused to disclose the truth before the Magistrate of the Alipur Dooars Court when no evidence was actually called from them, and they wanted permission of the Manager to write to the trying Magistrate which was not, perhaps, granted. Sri N. K. Bhattacharyya stated that as he himself had been assaulted there could be no question of his giving false evidence in court and what he had actually seen was told by him. The explanations, however, were considered very unsatisfactory by the Acting Manager who forwarded them to the Managing Agents as requested by the latter on 18th March 1950. On the 25th of March 1950 the Company wrote a letter to the Labour Commissioner, West Bengal, enclosing a copy of the letter of the officer-in-charge of Kalchini, police-station, dated 3rd March 1950, and asked for the Labour Commissioner's advice as to whether the Company would be justified in giving the clerks concerned one month's notice to terminate their employment in view of the last sentence of the letter of the officer-in-charge, Kalchini police-station. It was also brought to the notice of the Labour Commissioner that the Company was responsible for the safety of the garden, and could not ignore the warning which came from a responsible official of the Government. In reply to that letter of the Company, the Deputy Labour Commissioner, West Bengal, by his letter, dated 5th April 1950, advised the Company to take up the subject

with the District Police authorities, and added that "if the police authorities find them undesirable, we have nothing to say in the matter". Thereupon, on the 19th April 1950, the Company wrote to the Superintendent of Police, Jalpaiguri, with copies of letter of the officer-in-charge, Kalchini police-station, dated 3rd March 1950 and of the Labour Commissioner, dated 5th April 1950, and enquired whether he supported the view of the officer-in-charge of Kalchini police-station "that the three persons under reference are undesirables", so that they might be in a position to take appropriate action. The Superintendent of Police in his reply, dated 27th April 1950, expressed his agreement with the views of the officer-in-charge of Kalchini police-station, and suggested that appropriate action might be taken by the garden authorities. After that Sri C. R. Paul, Sri H. P. Das and Sri N. K. Bhattacharyya were served each with a notice, dated 11th May 1950, terminating their services "in the interest of the Bhatkhawa Tea Company, Ltd." with immediate effect, on payment of one month's pay in lieu of notice, and they were given 14 days' time to vacate their quarters failing which the Company intimated taking action against them. Before that on 10th May 1950, Sri C. R. Paul wrote a letter to the officer-in-charge, Kalchini police-station, referring to his report, which was mentioned in the Acting Manager's letter, dated 16th March 1950, and asked for a copy thereof at an early date. It does not appear that any reply was received by him to that letter. On the 12th May 1950, all the three clerks, viz., Sri C. R. Paul, Sri H. P. Das and Sri N. K. Bhattacharyya wrote to the Subdivisional Officer, Alipur Dooars, asking for protection against eviction from their quarters which was threatened by the Acting Manager's notice of termination of service, dated 11th May 1950, and sent copies thereof to the Labour Commissioner, West Bengal, Assistant Labour Commissioner, Darjeeling, Regional Labour Officer, Jalpaiguri, officer-in-charge, Kalchini police-station and the Secretary, Tea Garden Indian Employees' Association. At the same time they also requested the Acting Manager Mr. J. Poulton to state the reason for termination of their services. The Acting Manager replied to them on 13th May 1950 saying that the reason why their services were terminated was the "Company's interest", and if any further information was required the same might be had from the Managing Agents, Messrs. McLeod & Co., Ltd. On 24th May 1950 the Regional Labour Officer of Jalpaiguri asked the 3 employees to see the Superintendent of Police, Jalpaiguri, on 31st May 1950 in connection with their dismissal by the Management. The matter was subsequently taken up by the Assistant Labour Commissioner, Darjeeling, who visited the Garden on 15th September 1950 and held conciliation proceedings with a view to bringing about a settlement between the parties, but failed. The matter was taken up again in Calcutta with Messrs. McLeod & Co., Ltd., by the Labour Commissioner, Calcutta. Letters were written to the Superintendent of Police, Jalpaiguri, who in reply intimated that dismissal of the employees was not their recommendation, but what was suggested was that appropriate action in the shape of "deduction of pay" might be taken. The Superintendent of Police is further stated to have opined that "in the interest of industrial peace these three employees might be transferred to some other garden under management of the same Company". Thereafter a joint conference was held by the Labour Commissioner and, as agreed in that conference by both the parties, the dispute was referred to the Tribunal for adjudication on the points specified in the order of reference.

The 3 employees concerned in this dispute, viz., Sri C. R. Paul, Sri H. P. Das and Sri N. K. Bhattacharyya, are represented in this proceedings by their Union known as the Tea Garden Indian Employees' Association (hereinafter referred to as the Association, and sometimes also as the

Union). The case of the Association as made out in a lengthy written statement filed on their behalf, is that they were dismissed by way of victimisation for their Trade Union activities. It is stated that the Tea Garden Indian Employees' Association was started in 1947 with employees of the Bhatkhawa and other neighbouring Tea Estates as members thereof. The then Head Clerk of the Bhatkhawa Tea Garden Sri S. C. Paul had taken active part in organising the Union, and he was its first Secretary. As he had protested against the summary dismissal of the Store Clerk Sri K. C. Bhowal of the same Tea Estate, he was dismissed in about the middle of June 1947. There was an enquiry by the Chairman of the Dooars Planters' Association, Toorsa Jainti sub-district, and by the Indian Tea Association's Labour Officer. It is said that Sri C. R. Paul, Sri H. P. Das, Sri B. Sarkar and Sri S. N. Sen were some of the few "Babus" who refused to give false evidence at the enquiry as suggested by the Manager. Sri B. Sarkar, who was the successor of Sri S. C. Paul in the post of the Head Clerk, and Sri S. N. Sen, clerk, were, as a result, removed from the Bhatkhawa Tea Estate. Eventually Sri S. C. Paul was re instated through the intervention of the Labour Directorate, Government of West Bengal, but he was removed from the area. In December 1947 Sri B. Sarkar and Sri S. N. Sen resorted to hunger strike as the Manager had inflicted a cut in the pay of the former and served a notice of termination of employment on the latter. On the 3rd day of the hunger strike there was a general meeting of the Association at the end of which the members went in a procession to the Manager's bunglow demanding re instatement of Sri Sen and payment of full pay to Sri Sarkar. The Labour Advisre of the Company Mr. C. Weale had been to the Bhatkhawa Tea Estate in this connection, and he accepted the demands of the Association. Sri C. R. Paul and Sri H. P. Das are said to have supported Sri S. C. Paul in his protest to the Management against the dismissal of Sri K. C. Bhowal, and also to have attended the abovementioned protest meeting and joined the procession thereafter. It is the case of the Association that three employees were naturally looked upon by the Management as "intensibly active trade unionists", and their dismissal is the result of the "active anti-trade union attitude" exhibited by the Management throughout. Before their dismissal, Sri C. R. Paul and Sri H. P. Das were deprived of the cost of carriage of water due to them. Sri Paul was deprived of his increment and commission for which he had agitated, and there was systematic oppression on Sri N. K. Bhattacharyya whose claim for the benefit of the Provident Fund and commission was persistently refused although he had come on transfer from another Tea Estate in Sylhet and had fulfilled the conditions for qualifying for the same. Regarding the specific charge against them, it is alleged that the police prosecutor wanted them to identify some of the accused persons, but as they had not recognised any of them at the time of occurrence, they refused to do so whereupon they were considered "useless" and even alleged to have been "brought over" by the other side. Eventually, Sri Paul and Sri Das were not examined in Court. It is further alleged that on return from Alipore Dooars these three witnesses were called by the Acting Manager Mr. Poulton, and the Assistant Manager Mr. Wilson, and were asked why they had not given evidence for the prosecution in the way the other employees had done. They explained that they had not thought it proper to give false evidence in Court. After they had submitted their explanations on 17th March 1950 and sought for permission to write to the trying Magistrate of the Alipore Dooars Court, which was not given,, they came to learn that the Manager Mr. Poulton had written to the Head Office in Calcutta for

transfer of the three employees to any other garden in Pakistan. Eventually they were served with notices dismissing them from their service on the 11th May 1950 with effect from the 11th May, 1950. It is suggested that there was a shady understanding between the Manager and the officer-in-charge, Kalchini police-station, to create some sort of plausible plea to enable the Manager to discharge these 3 men who were already in the bad book of the Manager evidently for their pronounced trade union leaning and activity and spirit of independence. The Association finally asserts that this is a pure case of victimisation for legitimate pursuit of lawful trade union activities. The Union, therefore, prays for reinstatement of the discharged employees with full compensation on account of unpaid pay, allowance, commission, etc. and also other reliefs as specified in the written statement.

The Company denies the allegations made against the Management and also repudiates the correctness of the allegations regarding the incidents of 1947 and 1948 made by the Association which, they contend, are irrelevant for the purpose of this enquiry, and they have no connection whatsoever with the dismissal of the 3 employees in question. The Company's case is that on receipt of the letter of the officer-in-charge, Kalchini police-station, dated the 3rd March 1950, the Acting Manager asked for the explanations from the clerks concerned after consulting the Managing Agents. He considered the explanations most unsatisfactory, and forwarded them to the Managing Agents on 18th March 1950. On receipt of the above, the Managing Agents considered the matter carefully and wrote to the Labour Commissioner, West Bengal, asking for his advice in the matter. The Labour Commissioner having advised the Management to contact the District Superintendent of Police, Jalpaiguri, the Management wrote to Sri S. K. Sinha, Superintendent of Police, Jalpaiguri, who replied confirming the views of the officer-in-charge, Kalchini police-station, and suggested that "appropriate action might be taken by the garden authorities". On receipt of the Superintendent of Police's letter the Management again deeply considered the matter and decided to discharge the three individuals with one month's pay in lieu of notice as per Tea Garden's standing order No. 8. The reason for their decision is given as follows:—

(1) The 3 employees in question were not disclosing the truth and were siding with the accused persons who had been convicted by the Trying Magistrate, and whose conviction was upheld on appeal by the Sessions Judge;

(2) The explanations submitted by the clerks concerned were dishonest in view of the fact that the police never asked them to speak lies and that they made a contrary statement before the police at the time of enquiry that they were witnesses to the incident and were in a position to identify the accused;

(3) The police authorities had reported that for the safety of the garden action against them was necessary; and if an employee endangers the safety of the garden it is necessary to terminate his employment.

The employees were discharged on 11th May 1950 and new hands were recruited in their place. The Company maintains that under the circumstances action taken by them was fully justified and it was taken in the interest of peaceful working in the garden and the Company's action was not actuated in any way by any unfair motive as alleged by the Union.

The question which arises for consideration whether the dismissal of the three persons mentioned was justified in the light of the previous records of the case. The Company's case is that they were discharged with one month's pay in lieu of notice under the Tea Garden's standing order No. 8. The standing order No. 8 runs as follows:—Notice of termination of employment, whether by Manager or by workers shall be given equal to the wage period of the worker concerned provided that—

(*a*) the Manager may in his discretion terminate the employment of the worker forthwith and pay him wages for the wage period (equivalent to his average earnings over the preceding period of 3 months) in lieu of notice;

(*b*) Notice of termination of employment shall be necessary only in the case of permanent workers and not in the case of outside or temporary workers except in so far as is laid down in any agreement entered into between the Manager and such outside or temporary workers.

(*c*) The Manager may dismiss without notice any worker who is guilty of misconduct.

The Labour Appellate Tribunal has laid down the principles applicable to cases of termination of service under standing orders which are generally of the following three types:—

(1) Automatic termination for absence without leave for a stated period or for overstaying leave without satisfactory explanation;

(2) Discharge on notice or in lieu thereof payment of wages for a certain period without assigning any reason; and

(3) Dismissal for misconduct.

(B & C Mills, Ltd., and their workers—L.L.J. 1951, Vol. II, page 314, at pages 317—21.)

In all these types of cases the requirement of *bona fides* is essential. In dealing with the cases of discharge on notice their Lordships have observed that even when the standing order authorises discharge on notice without assigning any reason, the scope of enquiry would be similar to enquires held in other two types of cases. The Tribunal would be entitled to know the reason behind the termination of service in order to judge whether the act of the Manager was *bona fide* or was without ulterior motive or his conduct was arbitrary or he had acted with unnecessary harshness or there was victimisation or unfair labour practice. If the termination of service in this type of cases be held to be justified, no further question would arise, though in exceptional cases of this particular type there may be scope for giving compensation. If the Tribunal finds the termination to be unjustified, the question of relief,—reinstatement and/or payment of compensation,—will arise, and in dealing with that question the considerations arising in cases of wrongful dismissal would be applicable.

In the present case the Company has disclosed the reason before the Tribunal and the same reason had been disclosed to the Labour Officer and to the Labour Directorate, Calcutta, and sufficiently indicated to the employees concerned. It has made no secret about the fact that the order of discharge of the three employees was based mainly on the police report, dated 3rd March 1950. The Union would have to show by *prima facie* evidence that the employees Sri C. R. Paul, Sri H. P. Das and Sri N. K. Bhattacharyya were dismissed by the Company by way of victimisation, which is their case. That would involve showing that the reason assigned by the Company for the termination of their services was not a *bona fide*

reason, and that the real reason was based on the fact that they were active members of the Union. There is no satisfactory evidence that the employees were conspicuous to the Management by virtue of their Trade Union activities. None of them was a member of the Executive Committee of the Association. What Sri C. R. Paul and Sri H. P. Das did as members of the Association was mainly, if not solely, to recruit new members for the Association. Sri N. K. Bhattacharyya joined the Bhatkhawa Tea Estate in June 1948 and nothing is known about his Union activities except that he was an ordinary member of the Association. It is not in evidence that a list of members of the Association including the new recruits was ever submitted to the Management, nor is there evidence of any correspondence having passed between the Union and the Management which was likely to attract the attention of the Management to the activities of these employees as members of the Union. One Rokenath, who is an ordinary electrician of the garden and who is suggested to have been recruited to the Association, was known to the new Manager Mr. Mackenzie of the Bhatkhawa Tea Estate to be a member of the Dooars Chabagan Mazdoor Sangha, the other Union. It is generally known that the members of the Indian Clerical and Medical staff of the Tea Estate are members of the Tea Garden Indian Employees' Association. Even now, on the list of the Indian employees of the Tea Estate there are members of the Association which is still functioning in the garden. A few of those members are even office-bearers of the Association. As it appears, the only Trade Union activities of Sri C. R. Paul and Sri H. P. Das for which they are said to have risen to a position of prominence were those connected with the dismissal and subsequent re-instatement of the Head Clerk Sri S. C. Paul, and the punishment of his successor Sri B. Sarkar and another clerk Sri S. N. Sen, both of whom later resorted to hunger-strike and won their points. It is said that they gave "loyal" support to Sri S. C. Paul when the latter took up a bold stand against the arbitrary dismissal of the Store Clerk Sri K. C. Bhowal. What the nature and manner of that alleged support were, we do not as yet know. Their alleged refusal to make false statements at the enquiry held in the case of Sri S. C. Paul may give themselves the satisfaction of being strictly truthful men, but one would naturally hesitate to take them at their words when they themselves went unscathed while Sri B. K. Sarkar and Sri S. N. Sen were alleged to have been victimised for that very reason. The aspersion cast against the Management may be unfounded. It is certain at any rate, that there was no intention on the part of the Company up to that time to victimise Sri Paul and Sri Das. I find nothing of special importance in the fact that as members of the Association they were, among many others, in the meeting, and in the procession which waited upon the Manager for redress of the grievances of Sri B. K. Sarkar and Sri S. N. Sen. But for their own verbal statements made at this distance of time and for the purposes of this case, there is nothing tangible to connect Sri C. R. Paul and Sri H. P. Das with all those movements. Sri S. C. Paul was ultimately reinstated and transferred to some other area. Sri K. C. Bhowal, who had been discharged, was later offered reinstatement in some other garden, but he did not accept the offer. As regards Sri S. N. Sen and Sri B. K. Sarkar, the admitted fact is that the trouble was over through the intervention of Mr. C. Weale, Labour Officer of Messrs. McLeod & Co., without any reference to the Labour Commissioner being necessary. Almost all of those whose services were terminated in 1947, or thereabout, were reinstated or offered re-employment, and some of them are still in employment under the Company. That being so, it would not certainly be reasonable to suppose that Sri C. R. Paul and Sri H. P. Das were victimised about 3 years after in 1950 on the ground that they had supported the cause of those who had been successful in getting

back their employment and other benefits, in 1947 or thereabout. The inference of victimisation for Union activities would be too farfetched and conjectural in the face of the circumstances stated.

A piece of evidence has been laid before me relating to a practice which the employees adopted after the attainment of independence of India. They began wearing Gandhi Cap and saying "Joy Hind" to the Manager by way of greetings when they came to office. The Manager, it is said, objected and warned them not to do that. They have since discontinued the practice. If there was any annoyance caused to the Manager for the sudden change in their dress and manner of greetings, it ended with the warnings which were admittedly never recorded. There is absolutely no connection between that behaviour of the employees concerned and their punishment by way of discharge which occurred almost three years after. On behalf of the Association, however, it has been contended that the water-supply to their quarters was stopped by the Company because they had incurred the displeasure of the Company by their independent spirit and frequent agitation carried on by them. But the fact of the matter seems to be otherwise. The Clerical and the Medical Staff of the Tea Estate are given a servant allowance of Rs. 31, but those whose quarters are situated at a distance from the common water pipe, are given supply of water to their quarters by a water carrier paid by the Garden. It appears that the Company proposed to discontinue the practice and stopped paying for supply of water to the quarters of Sri H. P. Das which was shared by Sri C. R. Paul also, as he had no independent quarters. Sri C. R. Paul and Sri H. P. Das put up a bill of Rs. 65-10 on the 27th February 1950, but it was not paid. The matter was, however, settled by the intervention of Mr. C. Weale to whom the Regional Labour Officer had referred the matter. The result was that the Manager undertook to make suitable arrangement for free supply of water as before. This was in February 1950 and the bill as well as the accompanying letter were addressed to the Acting Manager. It is not impossible that the new Manager had stopped water-supply through ignorance of what the practice had been in the Tea Estate. It does not follow that the action that was taken by the Manager was as a measure of punishment to the employees affected by his order.

Of the three employees with whom we are at present concerned, Sri N. K. Bhattacharyya alone appears to have been agitating for increment of pay and commission or bonus from a long time before the termination of service. What transpires from the trend of these letters (all of which are attached to the Association's written statement), is that the Management was not satisfied as to the efficiency and good work of Sri N. K. Bhattacharyya though he obtained a good certificate from the Chief Medical Officer of the Central Hospital, Bhatpara, Hamiltongunge, from whom he had taken the last training in 1949. The matter was ultimately dropped in view of the police report, dated 3rd March 1950. The Company was paying the benefits, for which Sri Bhattacharyya was a claimant, to other officers, according to rules framed and circulated from time to time. Nothing can be reasonably suggested as to why the benefits were persistently refused to him if he had earned the same by efficient discharge of his duties. It must be remembered that there is no proof, and not even a suggestion, of anything conspicuous having been done by him as a member of the Association to incur the displeasure of the Company. There is one application, dated 16th March 1950, from Sri C. R. Paul also asking for increment on the basis of previous services rendered by him in other places and also commission from 1948. But by

this date, the police had submitted the report calling in question his honesty and loyalty, and the matter was under consideration of the Company. It is natural that in view of the report which they had received from the police concerning these men the Company was reluctant till they arrived at their final decision to grant any concession to them in the matter of pay and other things. It depends upon the discretion of the Manager whether the services rendered in other places should be counted towards increment while in employment under Messrs. McLeod & Co. It is not reasonable that this discretion should be exercised in favour of persons against whom the police had reported already in the manner it was done, or that previous services should be counted towards increment unless such previous services were regarded as of value to the Company. I accept the evidence of the Manager Mr. Mackenzie on this point. Both Sri C. R. Paul and Sri H. P. Das were very young when they joined the Bhatkhawa Tea Estate, and it is not denied that their past services were not counted in the exercise of discretion of the Manager on the ground of their extreme youth when the question of revision of pay and commission payable to them arose for the first time. These are matters which appear to be totally unconnected with the question of their dismissal or discharge in May 1950.

I must say that the Union's theory of victimisation of the three employees for their Union activities is far from established, and the inference that I am invited to draw from the facts and circumstances placed before me does not really follow. If their dismissal had not arisen out of a specific cause like the one based upon a definitely damaging report from the police concerning them, and if the Company had not dismissed them for that specific cause, it might be possible to draw an inference as urged by the Association that they were dismissed with an ulterior motive, by way of victimisation or in the exercise of unfair labour practice on the part of the Company. But in the present case the termination of their services was based directly on the report submitted by the police that in view of the future safety of the garden action should be taken against them by the Garden authorities. I called for the police diary of the riot case which, on production, was allowed to be inspected by either party so that they might make use of the relevant portion of it, if necessary, during arguments. A certified copy of the relevant extract of the diary has been placed on the record. The statements which the witnesses made before me regarding the incident are substantially the same as recorded in the police diary. It appears, however, that Sri N. K. Bhattacharyya had recognised his assailant and had said so to the police during investigation. Sri C. R. Paul and Sri H. P. Das also had recognised during police enquiry some of the persons who were accused in the case and who were tried for the offence at Alipore Dooar Court. But they denied having recognised any of these accused in this case as they had done before or during trial of the criminal case. The fact remains however that in the case diary there are statements alleged to have been made by them recognising some of the accused whom they refused to identify later. There is on record a letter (Ext. D) written by the Assistant Manager Mr. Wilson to the then Acting Manager of the Bhatkhawa Tea Garden regarding the riot case on 8th March 1950, which may be regarded as a contemporaneous record of events which took place in the Alipore Dooar Court on 2nd March 1950. Mr. Wilson was examined on 6th February 1950, but he attended the trial on 2nd March 1950 also. He is no longer in India and was not available for giving evidence at the hearing. The then Acting Manager is not also within reach now. The letter says "I have

was commented upon by the police and also sufficiently informed about the reasons for which their services were terminated. They were asked to make correspondence with the Managing Agents, Messrs. McLeod & Co. if further information in the matter were required by them. I conclude, therefore, that the discharge of the three persons, namely, Sri C. R. Paul, Sri H. P. Das and Sri N. K. Bhattacharyya, was justified in the light of the previous records of the case.

The next question is about the relief, if any, they are entitled to in the circumstances of the case. It is an admitted fact that after the Association had approached the Superintendent of Police, Jalpaiguri, the latter recommended that in the interest of industrial peace these men should be reinstated, but their increments should be withheld for a year (evidence of Mr. Weale, page 5). This letter of the Superintendent of Police, Jalpaiguri, was perhaps, dated 12th December 1950 to which reference is made in the Labour Commissioner's report, attached to the order of reference. The Management was not, however, satisfied as withholding of pay was not considered to be the "appropriate action" in view of the earlier report of the police. The Labour Commissioner's report of conciliation, dated 9th March 1951, which is annexed to the reference, shows that there was a further confidential correspondence with the Superintendent of Police, Jalpaiguri, who was asked to say whether circumstances had in his opinion since changed, and the continuance of those persons in the garden would not endanger the safety of the garden. The Superintendent of Police is stated to have replied on 16th February 1951 that in the interest of industrial peace the three employees might be transferred to some other garden under the managment of the same Company. Even after that there was no agreement between the parties except on the point that the dispute should be referred to the Tribunal, and accordingly there was the reference. A question would arise whether the latest opinion of the Superintendent of Police, Jalpaiguri, should count towards reinstatement or reappointment of the three employees in question. On behalf of the Association it has been urged that in the face of the latest view of the Superintendent of Police, there was no real apprehension of danger to the safety of the garden and the Company was not justified in terminating their services. To my mind the contention has no force. By the time the Superintendent of Police recommended reconsideration of the matter, the three employees concerned had already been discharged on the basis of the report of the officer-in-charge, Kalchini police-station, which was confirmed by the then Superintendent of Police, District Intelligence Branch, Jalpaiguri. The recommendation, as just mentioned, came not from Sri S. K. Sinha, Superintendent of Police, District Intelligence Branch, Jalpaiguri, who was in charge of the district at the relevant time and who confirmed the report of the officer-in-charge of the Kalchini police-station, Sri Kanjilal, but from his successor, and after the trial had possibly been over. It was entirely a matter for the Management to decide what should have been the "appropriate action" as suggested by the investigating police and also by the Superintendent of Police, District Intelligence Branch, Jalpaiguri. Their decision was open to revision only by the Industrial Tribunal, but the Tribunal would also not be justified in substituting its judgment in place of the Management's decision unless there was victimisation or unfair labour practice on the part of the Company, or there is want of *bona fides*, or arbitrary conduct or unnecessary harshness on the part of the employer. If the view taken by the Management is a possible view on the evidence before it, the Tribunal is not to interfere with the decision of the Management, as in such matters the Tribunal does not act like a

court of appeal. To give effect to the latest recommendation of the Superintendent of Police, Jalpaiguri, would be to allow the Company's decision to be replaced by the Superintendent of Police's opinion that in the interest of industrial peace, the dismissed employees should be reinstated and transferred to some other garden. This cannot be allowed. As it appears from the conciliation report, dated 9th March 1951, attached to the order of reference, the Superintendent of Police did not say as asked, that circumstances had in his opinion changed, and that the continuance of the employees concerned in the garden would not endanger the safety of the garden. On the other hand, he recommended his transfer to some other garden under the same Company. The Company might reasonably contend that there was no change of circumstances requiring alteration or revision of the Company's decision to terminate their services. I am accordingly to hold that the employees concerned, Sri C. R. Paul, Sri H. P. Das and Sri N. K. Bhattacharyya, are not entitled to reinstatement or reappointment as claimed.

I now come to the question whether Sri C. R. Paul, Sri H. P. Das and Sri N. K. Bhattacharyya are entitled to any compensation on account of discharge. There is a prayer for such compensation in the written statement of the Association. Once it is found on scrutiny that the termination of service on notice in a particular case is justified, there should ordinarily arise no further consideration. But in exceptional cases of this type there may be scope for awarding compensation. The employees were not guilty to their employers for anything like misconduct or misdemeanour. Nor were their services terminated on account of inefficiency or failure of duty for which they were employed. There was nothing against them on their service records. To all appearances, the trouble arose because they refused to identify the accused persons whom they had previously identified before the investigating police officer. The view taken by the Assistant Manager in his letter dated 8th March 1950 (Ext. D), is quite possible. It is not unlikely that being threatened by the garden labour, a section of which was recruited to the Association by themselves, they wanted to avoid giving false evidence in Court, and thereby to save themselves from the threatened danger awaiting them outside. The refusal of Sri C. R. Paul and Sri H. P. Das to give evidence in Court if they were to identify any of the accused persons, is quite consistent with reason from the stand point of their own safety. Sri N. K. Bhattacharyya's refusal to identify his assailants while on dock is also capable of explanation from the same point of view. The Labour Officer of the Company, Mr. C. Weale, who was a Deputy Inspector-General of Police, at the time of his retirement in 1947, said that he never reported the fact of failure of a witness or witnesses to give out truth in evidence to their employers, nor did he know of any police officer who had done so. While arguing the case he remarked that the report of the police officer in this particular case was "something unusual". The unusual character of the report might have given it an air of additional importance in the eyes of the Management, but it took the victims quite unawares and practically hit them in the back. The reason for the apprehension that their continuance might endanger the safety of the garden in future is not clear. If it is to be gathered from the report itself, then it must be said that the inference was hastily drawn. The report being confirmed by the Superintendent, District Intelligence Branch, Jalpaiguri, it was not possible for the Company to ask for disclosure of reasons which might be confidential. The result was that the position of the employees became worse after the confirmation. It is to be noted, however, that the later Police authorities of the district took a lenient view of the matter when they recommended for lesser punishments. One will be inclined to think that the apprehension was not so strong as it had at first appeared. Whatever defence was

The Government of West Bengal, in the Department of Labour, by another order, being No. 91Dis./D-11L-99(B)/51, dated 21st September 1951, made a second reference of another industrial dispute between the same Companies and the same Union in respect of the following schedule for adjudication by this Tribunal:—

DECISIONS.

Issue No. 1.

The Union demanded the appointment of coolies in the Beaming Department to handle the beams and it has complained that the job of beam-coolies which is generally performed in a jute mill by coolies in the Beaming Department is done by beamers in this Company. It is stated that this is an extra job, a kind of loading and unloading which the beamers should not be made to undertake. In the evidence of O.P.W. 1, Mr. D. Robertson, Manager of the Company, it appears that there are 20 beamers in this Company who are paid on time rates according to the Award of Sri S. N. Modak and not on piece-rates as in an ordinary jute mill, that beamers fit the beams to the machine and when they are full they take them out and roll them on to the storage. It is also stated that on account of the great variety of fabrics used in the manufacture of tapes, which are about 30 or 32 in number, the Weaving Line Sardar selects the beams from the store and takes the beam from the st · to the loom. It further appears from the evidence of O.P.W. 1 that the work in the Beaming Department of a jute mill is quite different from that performed in the Beaming Department of this Company, that in a jute mill the weight of a full beam varies from 500 to 600 pounds but the weight of a full beam used for the work of this Company varies from 140 to 150 pounds. The length of a beam in this Company varies from 14 inches to 15 inches, whereas in a jute mill the length of a beam is up to 48 inches. In the Award of Sri S. N. Modak published in the *Calcutta Gazette, Extraordinary*, dated 22nd March 1949, time-rates of wages of beamers were fixed. It appears from this Award that the 3rd beamer who assists the 1st and the 2nd beamers is a special category of worker in this mill and is absent in a normal jute mill. In the Manager's evidence it appears that if a cooly is appointed in the Beaming Department the number of beamers will be reduced, and in view of the fact that beamers are paid time-rates of wages and not piece-rates and that this combination of functions, namely, doing beaming work as well as fitting the beams to the machines and rolling them to the storage has been in existence since the inception of this Company and that the size and weight of the beams of this Company is much smaller than those in a normal jute mill, no claim for appointment of beam coolies according to the usage in a jute mill appears to be justified. I am afraid the appointment of a cooly in the Beaming Department will only interfere with the existence of the third beamer and will do more harm than good to the workmen. The claim made in this issue is, therefore, rejected.

Issue No. 2.

The Union's case is that although it is a practice in a standard jute mill to appoint substitute weavers when the permanent incumbents remained absent, in this mill the machine is kept idle if the permanent hand is absent after Tuesday in the week. It is stated that keeping the machine idle means loss in production and a fall in production affects the earnings of the Line Sardars. The Union, therefore, prays that substitute weavers should be appointed on all days in the week.

The Company states in its written statement as follows:—

"The appointment or non-appointment of a substitute in the event of a permanent hand being absent and keeping a machine running or standing is purely a management function. The Union cannot make an issue of this unless they can prove that extra work has been imposed on other workers on account of the non-employment of substitutes. No employer can be compelled to employ more men merely to enable Line Sardars to earn more and we understand that this is the submission of the Union. The Company found that appointment of substitutes on certain occasions when a permanent hand was absent was not economical and, therefore, decided not to employ substitutes on all such occasions. The Company, therefore, cannot agree to appoint substitutes as demanded by the Union."

In the evidence of Mr. Robertson it appears that the Company did not up till now appoint any *budli* weaver after Wednesday in the week, and that this practice was followed because the Company suspected that the advantage of food concession of Rs. 2 for attendance for one day in the week was being abused by the workmen by keeping absent and having a *budli* appointed only for one day. The Manager of the Company further states that after the Award of the Second Jute Tribunal had been published on 12th November 1951, the Company is prepared to accept the Award on dearness allowance and the Company will have no objection to appoint substitutes on all days in the week, and that in this Company dearness allowance is paid according to the First Award of the Jute Tribunal and that the Company is prepared to pay dearness allowance according to the Second Award and that as a matter of fact, it has already introduced dearness allowance according to the Second Award from 10th December 1951. In the Second Award of the Jute Textile Tribunal the total amount of dearness allowance, which has been enhanced, has been linked with attendance and the distinction between dearness allowance proper and dearness allowance by way of food concession, which later was available for attendance on one day in the week only, has been abolished. The Company, it appears, has already introduced the enhanced rate of dearness allowance as allowed in the Second Award of the Jute Textile Industry Tribunal published on 12th November 1951. In view of this fact the Company agrees to appoint substitutes on all days in the week, if necessary, and if thought proper by the Company. This issue is accordingly awarded.

Issue No. 3.

The Union states that in view of the work performed by the workmen of the Dyeing Department of this Company compared to the work of Dyers in a standard jute mill the basic wages of the workers for this Company are very poor, that the work of a Dyer is of a semi-skilled nature and the wages of Dyers and the dyeing Sardar should be reasonably increased.

The Company contends that this matter was thoroughly considered in the last Award by Sri S. N. Modak when he assessed and fixed the rates of wages for the workers in the Dyeing Department and that no justification has been shown why the rates laid down by Sri S. N. Modak published in the *Calcutta Gazette, Extraordinary*, dated 22nd March 1949, require revision. It was awarded by the learned Adjudicator that there was no necessity for appointing a Sardar in the Dyeing Department of this Company or calling the First Dyer as the Sardar and the wages of the First Dyer and the Dyers were fixed by the learned Adjudicator on a detailed consideration of the matter. I do not consider that there is any ground for revising the Award in respect of the Dyeing Department at this date and the claim made in this issue is, therefore, rejected.

2. Declaration of certain goods to be essential for the life of the community.—The goods specified in the Schedule are hereby declared to be essential for the life of the community.

3. Regulation of tax on sale or purchase of essential goods.—No law made after the commencement of this Act by the legislature of a State imposing, or authorising the imposition of, a tax on the sale or purchase of any goods declared by this Act to be essential for the life of the community shall have effect unless it has been reserved for the consideration of the President and has received his assent.

THE SCHEDULE.

8. Repeal of Ordinance 1 of 1951.—(*1*) The Essential Services (Prevention of Strikes) Ordinance, 1951 (1 of 1951) is hereby repealed.

(*2*) Notwithstanding such repeal, anything done or any action taken in exercise of any power conferred by or under the said Ordinance shall be deemed to have been done or taken in the exercise of the powers conferred by or under this Act, as if this Act were in force on the day on which such thing was done or action was taken.

STATEMENT OF OBJECTS AND REASONS.

In spite of the best efforts on the part of Government to meet the legitimate demands of labour to the maximum extent possible, the All-India Railwaymen's Federation have announced that they will launch a general strike on railways. It has come to the notice of Government that workers employed in other essential services may also go on strike either in sympathy with railwaymen or for other reasons. The interruption of railway communications as the result of a strike will seriously imperil the economic life of the country, affecting, as it will, the movement of imported food from the ports of landing to the scarcity regions in the interior, as well as the flow of other capital and consumer goods. A strike in the other essential services will also have serious consequences on the life of the people and the security of the country.

In order to safeguard the welfare and interests of the public at large against the consequences that might follow from the action on the part of the workers in certain essential services going on strike, Government have issued an Ordinance empowering them to prohibit strikes in any of the essential services therein specified. The Bill seeks to replace the Ordinance.

The Bill is an emergency measure and it has been provided that it shall remain in force only up to 31st December, 1952.

D. BASU,
for Director of Agriculture, West Bengal.

Calcutta, the 6th December 1951.

DIRECTORATE OF AGRICULTURE, WEST BENGAL

Calcutta, the 2nd August 1951.

Preliminary Forecast of the Jute Crop of West Bengal for 1951.

The preliminary forecast deals with the area and the condition of the crop in the early part of the jute growing season. The estimate of outturn is shown in the final forecast.

The survey for the preliminary forecast was completed by the middle of June when much area could not be sown owing to late rains this year. Subsequently the Government of India's decision about the change of dates of jute forecast was received but as the intimation came too late for another complete survey the staff of the Directorate could only revise the estimates of the first survey in the light of informations collected of late sowing which continued up to the third week of July this year. Consequently, the figures shown in this forecast are provisional and will be revised in the final forecast.

Area sown.—In West Bengal, 7,51,900 acres are estimated to have been sown with jute crop this year compared to 6,50,900 acres, the final estimate of last year.

Season.—Pre-monsoon showers occurred in the third week of March in certain districts where some areas could be sown early. In most of the areas, sowing actually commenced by the middle of June and at places at the end of June and continued till the third week of July. The scanty rainfall in March, April and in the greater part of May delayed the sowing operation. The intermittent rains and sunshine were favourable for the post-sowing operations and the growth of the crop.

The heavy showers in the second week of June inundated jute fields in some areas of Jalpaiguri district but the damage was negligible. There were attacks of insect pests in many cases and effective control measures were taken in most of the cases.

The prospect of the crop is very good.

Stock.—No stock practically remains in the hands of the cultivators from the crop of the previous year.

H. K. NANDI,
Director of Agriculture, West Bengal.

Office of the Accountant-General, West Bengal

NOTIFICATIONS.

Subject:—Grant of advances from Provident Funds for House-building purposes to displaced persons.

No. TM/331.—5th January 1952.—In continuation of this office notification No. TM/300, dated the 26th September 1951, on the subject indicated above, a copy of the Government of India, Ministry of Finance, office memorandum No. F.50(23)-E.V/51, dated 5th December 1951, issued in partial modification of the Government order referred to in the said notification, is circulated among all the Treasury and Sub-Treasury Officers in West Bengal for information and guidance.

Copy of Government of India, Ministry of Finance, office memorandum No. F.50(23)-E.V/51, dated 5th December 1951.

Grant of advances from Provident Funds for House-building purposes to displaced persons.

In partial modification of paragraph 3 of this Ministry's office memorandum No. F.50(14)-E.V/51, dated the 30th July 1951, on the subject mentioned above, the undersigned is directed to say that the Government of India have decided that authorities who are competent to sanction advances from various Provident Funds for any of the recognised purposes may sanction advances for the purpose of house-building also, if all the terms and conditions set out in the Annexure to the office memorandum quoted above are fulfilled. Cases necessitating relaxation of any of the terms or conditions will, however, continue to be referred to this Ministry.

2. It has been represented that the restriction that no advance shall ordinarily be admissible to an officer who is liable to transfer from place to place, would, if strictly applied, completely take away the benefit from the staff serving in those large establishments in which liability to transfer is one of the conditions of services. It has, therefore, been decided that advances to such officials may also be granted at the discretion of the competent authority, for instance, in cases where the persons concerned have only a very short period of further service to render and where it is clear that houses to be purchased or built with the help of these advances will be only for their own use.

3. The undersigned is also directed to make it clear that the term "displaced persons", as defined in this Ministry's office memorandum referred to above, does not include officers who have been in India continuously both before and after partition, but have lost property in places now in Pakistan.

Subject:—Accord of formal sanction to pensions.

No. T.M.(PR)/332.—5th January 1952.—A reference is invited to this office notification No. T.M.(PR)/238, dated 20th March 1951. In paragraph 3 of the Government of India, Ministry of Finance, office memorandum No. 9(1)-Est.V/51, dated 12th January 1951 (extract given below), authorities sanctioning pensions were requested to ensure that, before, according final sanction to a Government servant's pension, any admitted or obvious dues from that Government servant should be recovered. These instructions did not in any way modify the instructions contained in the Auditor-General's letter No. 117-A/103-34, dated 1st July 1935, to the effect that dues of this kind could be recovered from pensions with the pensioner's consent. They were only intended to obviate any possible difficulty in effecting recoveries in those cases where the pensioner's consent was not forthcoming. While, therefore, it is still possible to recover dues of this kind from pension with the pensioner's consent, it is advisable to effect the recovery otherwise than from pension before the pension is finally sanctioned. Care will of course be exercised to ensure that there is no avoidable delay either in informing the officer concerned of the total amount due by him to Government or in sanctioning the final pension.

All heads of offices of the Government of India under the audit of this office are, therefore, requested to follow the procedure mentioned above.

[Government of India, Ministry of Finance, office memorandum No. F.9(1)-E.V/51, dated 29th November 1951. Dy. India—6261 PB-568.]

Extract of paragraph 3 of the Government of India, Ministry of Finance, office memorandum No. F.9(1)Est.V/51, dated 12th January 1951.

3. There are cases in which certain sums are due to Government from a Government servant at the time of his retirement, e.g., over issues of pay, allowances or leave salary, or admitted or obvious dues such as house rent, postal life insurance premia, outstanding balances of various advances, etc. These sums cannot be recovered from the pension of a Government servant. Authorities sanctioning pension should therefore ensure that these outstanding sums are brought to the notice of the officer concerned with the least possible delay, and that he is requested to pay up the dues, before formally sanctioning the final pension. It is emphasised that, while these recoveries should be made before the pension is finally sanctioned, care should be exercised to ensure that there is no avoidable delay either in informing the officer concerned of the total amount due by him to Government, or in sanctioning the final pension after the amount has been recovered.

R. L. GUPTA,
Deputy Accountant-General.

PRESENT:

SRI S. K. NIYOGI, *District Judge, Industrial Tribunal.*

For the Company: Sri S. C. Sen, Advocate, and Sri J. K. Ghosh, Pleader, instructed by Sri S. Chatterjee, Labour Officer of the Company.

For the Union: Sri Sibnath Banerjee, Sri Narayan Das Gupta, Vice-President, and Sri Bhajan Das Gupta, Secretary.

AWARD.

By order No. 1377Lab., dated the 1st March 1951, the Government of West Bengal, in the Department of Labour, referred the abovementioned dispute to me, as an Industrial Tribunal constituted under sections 7 and 10 of the Industrial Disputes Act, 1947, for adjudication regarding the matters specified in a schedule of the said order.

A brief history of the dispute under reference may be relevant. Messrs. Indian Rubber Manufacturers, Limited, hereinafter referred to as the Company, are manufacturers of railway buffer springs, hose pipes, syphon pipes, steel ring and other rubber goods. The Company was formed in 1934 to manufacture the specialities of Messrs. George Spencer Moulton and Company of England. The factory was based upon experience gained with a similar factory in Africa and its lay-out and equipment were particularly designed so that all these specialities could be manufactured even by unskilled labour. At first it was a monopolistic concern but gradually there have appeared other competitors in the field. The Company is a member of the Indian Engineering Association. After the publication of the award of the First Tribunal adjudicating upon the disputes in the Engineering industries on 3rd July 1948, the Company decided to implement the award in its entirety and conveyed its decision by a letter, dated the

30th July 1948, to the President of the Rubber Factory Workers' Union, adding that it had already promised to the workers that the award should be implemented and that it was still prepared to do that. The workers were classified in 4 grades such as completely unskilled, unskilled but of a slightly higher character, semi-skilled and those who were more skilled than semi-skilled. A list was prepared showing the rates of pay for the four grades above mentioned. The grades and scales and classification are mentioned in Appendix A of the Company's written statement. The letter, dated the 30th July 1948, which has been referred to, forms an Annexure to the written statement of the Union.

On the 24th September 1948, a meeting of the workers was arranged inside the factory in order to discuss the scheme of graded classification which had been prepared. There was, however, no agreement arrived at in the meeting which ended in chaos. The Works Manager Mr. H. Shepherd was assaulted in that melee. The result was that the Company declared immediate lock-out which lasted for about two months. The factory was reopened on clear understanding given to the workers that they were to rejoin on exactly the same terms and conditions of service as prevailed before. The Union was reorganised some time after that but it was no longer recognised by the Company. Fresh demands were submitted by the workers through the Union. There was an attempt at settlement by conciliation; but both parties having agreed that the disputes should be referred for adjudication, the present reference was made for that purpose. The issues which have been specified in the order of reference for adjudication by the Tribunal are the following:—

(1) Introduction of a grade system and classification of workers.
(2) Production Bonus.
(3) House Allowance.
(4) Facilities for recreation.
(5) Medical Aid.
(6) Canteen.
(7) Retiring Benefits.
(8) Conditions of service.
(9) Administration of Provident Fund.

Issue No. 1.—Introduction of a grade system and classification of workers.

The Union demanded that the workers should be classified as unskilled, semi-skilled and skilled and the following grades and scales of pay should be fixed for them:—

Unskilled	...	Rs. 30—1—45.
Semi-skilled	...	Rs. 37—3—85.
Skilled	...	Rs. 55—5—130.

The Company contended that it had to face competitors in the market who were able to quote much lower prices for their goods by reason of their lower labour charges. The East India Rubber Works were paying to their workers Rs. 33 per month which was increased to Rs. 46 per month, including pay and dearness allowance, by an award of a Tribunal which was published in the *Calcutta Gazette*, dated the 15th December 1949. There was also an adjudication on Messrs. Kohinoor Rubber Works in which an award on similar terms was published in the *Calcutta Gazette* of the 8th June 1950.

The Company, it is said, was paying formerly a minimum of Rs. 58-12 per month whereas at the present moment they are paying the minimum emolument of Rs. 61 plus a food allowance equivalent to Re. 1-2 per month. It is further said that the production is now only just half of what it used to be two years ago owing to several factors, viz.:—

(*i*) Falling off of orders owing to inability of the Company to compete;

(*ii*) The "go slow" policy adopted by the workers of the Company for several years; and

(*iii*) Reduction in the prices which the Company is obtaining for its articles.

The contention of the Company, therefore, is that any other financial burden which might be imposed upon the Company would very seriously affect its ability to compete with the two Companies referred to above and also other Companies doing similar business in the market. The Company further submitted that, barring a few, their workers were mostly unskilled requiring no skill or special intelligence or of training. The Company, however, had classified the workers and paid them liberally, but since then circumstances have considerably changed because the Company's spring moulding department has been completely closed down due to its inability to retain such business against the low prices of its competitors and also because the process of manufacture in the vacuum brake hose department has been recently mechanised. So the scheme of classification and grading system does no longer apply. The wage structure prevailing in the Company is in no way less favourable than that awarded by the Engineering Tribunals in 1948 and 1950. Further revision is not deemed necessary and the Company is not agreeable to any proposal for automatic annual increment which in its opinion is unjustified and unfair.

The first Major Engineering Tribunal awarded Rs. 30 per month as the basic minimum wage of an unskilled worker. The lowest dearness allowance was fixed at Rs. 25 up to the pay range of Rs. 50. It has been increased to Rs. 31 per month by the award of the Second Engineering Tribunal in 1950 to which the Company was a party. So the minimum total emolument of an unskilled worker including basic wages and dearness allowance is now Rs. 61 per month. According to the Company's case in the written statement to which I have already referred the minimum total emolument paid at present is Rs. 61 plus a food allowance equivalent to Re. 1-2 per month. The Company wants to say that the awards of both the Engineering Tribunals have been implemented. Although at the time of lifting of the lock-out the workers were given to understand that they were to rejoin on exactly the previous terms, the notice, dated the 11th November 1948 (Exhibit G), says that "as from January 1st, 1949, the terms of employment will be exactly in accordance with the award of the Tribunal of adjudication for the Engineering industry in West Bengal, and these terms and regulations will be submitted to the Labour Commissioner and exhibited on the Company notice board". The Company having thus promised once again to implement the first Engineering award even after the lifting of the lock-out there is hardly any reason why the promise should not have been kept. But this was really not done. The Company examined its Labour Officer, Sri S. Chatterjee, who gave out that the Engineering Tribunal's award was practically implemented since the dearness allowance, which was fixed by that award at Rs. 25, was increased by Rs. 5 to Rs. 30 according to the wishes of the majority of the workers who were getting more than the minimum basic wage of Rs. 30 fixed by the Tribunal. This was really no implementation of the award as from the

chart (Exhibit C) prepared and submitted by him, it will be seen that there are even now 12 men working on Rs. 25 per month and 70 men on Rs. 25-4 to Rs. 29-12 though none is to be paid below the minimum of Rs. 30 fixed by the award. It was against the interests of the workers to agree to a proposal like that the dearness allowance should be increased in preference to basic wages, though at a low level, and I find myself unable to hold that they did so agree. Sri Chatterjee has no personal knowledge about the alleged agreement as he was not in employment under the Company at that time. He is also unable to say how long these 70 men working on Rs. 25-4 to Rs. 29-12 have been in the employment of the Company. He says, however, that they are not all temporary. I am unable, therefore, to accept Sri Chatterjee's statement as correct. It appears that although the Company undertook to implement the Engineering award, it has not given effect to the award in its true bearings and has left the workers drawing less than the minimum basic wages fixed at Rs. 30 out of the benefit of the said award of 1948 altogether. The Company's Advocate finally conceded that the Company cannot but implement the first Engineering award with regard to those getting less than Rs. 30 as minimum basic wages; as it had promised to do so.

It has been estimated by experts that the cost of living of a worker's family of 3 consumption units is Rs. 30 at pre-war price level when the cost of living index was 100. This has been accepted as the minimum basic salary at the cost of living index 160 at which the prices were expected to stabilise. The East India Rubber Works, Ltd., is a small concern, employing about 200 men only. The learned Tribunal adjudicating upon the dispute between the Kohinoor Rubber Works and its employees was of opinion that the standards of emoluments and amenities in that factory ought not to be lower than those provided for in the award in the case of East India Rubber Works, Ltd., and he accordingly fixed the minimum basic wages and dearness allowance on the same level without making any classification of the workers as it was not practicable for him to do upon the materials available in that case. These obviously small concerns do not appear to me to be comparable with the present Company which employs about 740 workers. According to Sri S. Chatterjee, Labour Officer of the Company, the Indian National Rubber Company and also R. B. S. Jain Company are the present Company's competitors specially the National Rubber Company. It will be seen from the award in the case of National Rubber Manufacturers, Ltd., published on the 8th August 1951, that the Company was paying Rs. 42-8 as minimum wages and the same amount as dearness allowance and these the Tribunal maintained by introducing certain cuts in the expenditure of the Company in view of its embarrassing financial condition. In the case of R. B. S. Jain Rubber Mills the following grades and scales were laid down by the Tribunal in its award published in the *Calcutta Gazette*, dated the 31st August 1950: -

Unskilled workers	...	Rs. 30 - 1 - 40.
Semi-skilled workers	...	Rs. 35 - 1 / 1 - 50.
Skilled workers	...	Rs. 46 - 1 - 8 - 52 - E. B. - 2 - 70.
Highly skilled workers	...	Rs. 60 - 2 - 8 - 2 - E. B. - 4 - 100.

It cannot, therefore, be said that the emoluments paid by the present Company to its workers are much higher than those paid by its competitors. Each case must not doubt be decided upon its peculiar facts and circumstances. But the above figure would tend to show the rates generally prevailing in the rubber manufacturing industries. I have, therefore, no hesitation to fix the minimum basic wage for an unskilled worker in the

Company at Rs. 30. Dearness allowance is not an issue in this case. As I have mentioned, the Company is already paying dearness allowance at the rate of Rs. 31 for the lowest paid workers according to the Second Engineering Award to which it was a party.

It would be a fair inference from the evidence of Sri Chatterjee that there is already a system prevailing in the Company of giving automatic annual increments, as the workers generally have been paid annual increment of Re. 1 up to 1950-51 under some such system. In the absence of any provision for annual increment of wages there will be no incentive for the workmen to do their work and the result will be detrimental to the industry itself. So, there ought to be a scheme for annual increment of wages of the workmen in this unit of the industry just in the same way as in its competitors. It may be true that the Company is a highly mechanised concern and various processes of manufacture are done on machines. But I am not impressed with the argument advanced on behalf of the Company that all the workers or a bulk of the workers must be unskilled for that reason. The Appendix "A" of the Company's written statement shows that there are various types and categories of workers, who are designated as mistries, weighers, mixers, extruders, ring-cutters, mould fitters, vulcanizers, fitters, turners, electricians, carpenters, blacksmiths, masons, boilerman, etc., according to the nature of work and the skill or experience or training required for the performance of the work which they are employed to do. If the jobs be so simple that even an unskilled worker may pick up in a very short time, as has been suggested by Sri Chatterjee, it does not necessarily follow that the workers, even after the acquisition of the art or technique of doing a thing, should still be regarded as unskilled. They may be semi-skilled or in some cases skilled or highly skilled. From the Appendix "A" it appears that there exists already a classification of workers as unskilled, semi-skilled and skilled. It is possible that this classification has been done on the basis of the principle that any worker on a job of work requiring more than one week's tuition should be regarded as semi-skilled; any worker who has served a three years' apprenticeship or is doing a job requiring three years' time for performance of that particular job satisfactorily is a skilled worker, and the remainder should come under the category of unskilled. This was the principle proposed in the Company's letter, dated the 30th July 1948, for working out the classification intended to be introduced at that time. There is no evidence to establish the alleged "go slow" policy adopted by the workers. The Company has paid increments to the workers generally up to date. The workers rejoined after the withdrawal of the lock-out even though they were deprived of the promised benefits under the Engineering Award of 1948. These are circumstances which seem to be inconsistent with the theory that the workers resorted to "go slow" tactics which affected production. Although there was labour trouble in 1948 the Company admittedly earned profit in 1948 and 1949. The Directors admitted in their report, on the balance-sheet of the year ended 31st March 1950 (Exhibit F), that they had earned considerable profit during that year. The report shows that the prices had to be reduced, not owing to increased labour charges, or for other reasons, but intentionally, because of the intensified competition since the end of the financial year, and that a large proportion of the available balance was carried forward to tide over the difficult times which might be ahead. The Company handed over to me confidentially the balance-sheet of the year ended 31st March 1951, which was yet to be passed at the general meeting of the Company. Although the figures show a diminished profit from what it was in 1950, I cannot say that the burden which is likely to be imposed by the introduction of a grade system and classification on lines similar to those obtaining in other

comparable concerns would be so great as to make it difficult for the Company to bear. The Company has not proved its labour charges, nor that they are heavier than what the competitors have to bear. If economy in expenditure is genuinely desired, the Company might begin at the top. No measure was taken under the standing orders to check the alleged "slow down" policy of the workmen and no report was made to the Labour Commissioner. The production might be low for various reasons without throwing the blame entirely on the workers. It appears from the award in the case of R. B. S. Jain Rubber Mill published on the 31st August 1950 that the Company had complained about non-availability of raw materials, chemicals, etc., and want of market for some of the products of the mill from about 1949. If there was a shortage of raw materials for one unit of the industry, it is not impossible that the present Company also suffered for the same reason, and the production was substantially affected. It is quite possible that the Company reduced its prices so as to make them competitive as it has recently been compelled to face other competitors in the field. The learned spokesman of the Union made a statement of fact in the course of his arguments that although the spring moulding department had been closed down for a short time, manufacturing of spring buffers have recommenced after the filing of the written statement. This statement has not been contradicted on behalf of the Company during arguments. For all these consideration I am unable to think that the Company has made out any case for not fulfilling its promise made after the publication of the First Engineering Award and for non-introduction of a grade system and classification of the workers as claimed by the latter on the previous undertaking given by the Company. Classification depends ultimately on the nature of the job a worker is called upon to perform. This system of job evaluation gives the Company a better chance to select the right man for the right job. The workers are also given an opportunity to choose such jobs as may be suitable to them. In the result I direct that the factory workers of the Company should be classified as unskilled, semi-skilled and skilled and I lay down the following grades and scales for them :—

Unskilled	...	Rs. 30—1—45.
Semi-skilled	...	Rs. 35—1·8—53
Skilled	...	Rs. 40—3—85.

Durwans will get the same scale as the semi-skilled workers.

The Union seeks to classify the workers in the manner shown in an appendix to its written statement. The list differs substantially from the list of classified workers given in the Schedule "A" to the written statement of the Company. There are no materials before me for evaluating the jobs of the different workers. The nature of work done by the different categories of workers is not known to me and neither party has made any attempt to explain the same. So, the classification of the workers according to different degrees of skill does not appear to me to be a practical proposition in this case. I am obliged, therefore, to leave it to the goodness of the Company to classify the workers into unskilled, semi-skilled and skilled, having regard to the nature and value of the job performed by each, the degree of skill required for its performance and also the length of services rendered by them to the Company, in addition to the qualifications possessed by the individual worker. This is the exclusive function of the management and I hope that the management will discharge this function with fairness and due consideration. After they are so classified they shall be placed in the appropriate grades at the stage just above their present basic wages. No worker shall get less than the existing wages. If the existing wage of any worker be in excess of the maximum of his grade the difference

will be treated as his personal pay. Semi-skilled workers will be those who with the acquisition of the requisite skill and experience may be legible for promotion to the category of skilled. In suitable cases the Company will be entitled to promote the deserving candidate in the semi-skilled category to the category of skilled workers. The wages of the daily rated workers will correspond to the scales of pay of the grades to which they belong.

At the time of the hearing the Union contended that the grades and scales which may be fixed in this adjudication may be given retrospective effect from 1948 when the Company had first promised to implement the First Engineering Award. In my opinion this is not possible. Although the Company had not raised the minimum basic wages of the lowest paid workers to the standard fixed by the Engineering Award, it had in a way given the benefit of the award to some persons by giving them total emoluments according to the two awards made by the Engineering Tribunals. The Company's accounts for the previous years ought to be considered as final and closed. In settling the wages and other benefits payable by the Company we should have regard to the present day conditions of the Company and reasonable expectations in future. What the workmen should have received in the past ought not to be the consideration. In my opinion the grades and scales fixed by this award should be given effect to from the time when the adjudication proceedings commenced, i.e., from the 1st day of March 1951. I make my award accordingly.

Issue No. 2.—Production Bonus.

The Union's case is that the Company had agreed to pay production bonus for the year 1948 and submitted a scheme of such bonus which the Union accepted with some modifications here and there; but no scheme, either the original or the modified one, was brought into use by the Company. In appendix 2 to the written statement of the Union an alternative scheme is suggested with a request that the Tribunal should ask the Company to adopt the same. The Company resisted the claim contending that the workers had started a "go slow" policy and have been giving a far lesser production that what they should have done. So, unless a reasonable target figure of production is arrived at the question of production bonus does not arise. The scheme referred to by the Union has not been placed before the Tribunal. The standard of basic production as suggested by the Union is an average production of 3 months. But I do not think that what is suggested would give us a solution of the problem as to what should be the production to justify the wages already being paid. In working out a production bonus scheme the basis shall be fixed at the production which justifies the normal basic wages of a worker according to the prevailing productivity of labour. This may be fixed either by a scientific method or by comparison of the labour charges prevailing in comparable undertakings for different items of products. It is also necessary to assess the contribution made by each worker to the standard production worked out. This can be done only by an expert or by a body of experts. It would be futile therefore to attempt at laying down a scheme of production bonus as contended for by the Union. The learned spokesman for the Union, however, ultimately concluded his arguments on the point with a request that the Company should be directed to make every effort to introduce a scheme of production bonus as it had once promised to do. A scheme of production bonus is likely to increase production by growing a healthy desire to earn more. Once a standard of production is worked out it would be easier for both parties to detect and check the "go slow" tactics, if any, adopted or alleged to be adopted by the workmen. I would,

therefore, recommend that early steps be taken by the Company for evolving out a suitable scheme of production bonus applicable to its factory.

Issue No. 3.—House Allowance.

The Union demanded that the Company should pay house rent allowance at the rate of Rs. 15 per month to workers drawing basic wages up to Rs. 50 and Rs. 20 per month to those drawing above that. The Company objected to these demands of the Union on the ground that its present financial position excludes any such consideration and that the Engineering Tribunal rejected the claim in 1948 after due investigation of the question for reasons which still hold good. On behalf of the Union reference has been made to the award made in the case of Associated Electrical Industries Manufacturing Co., Ltd., and published under the Government notification No. 757Lab., dated the 5th November 1947. In that case some compensatory house allowance was awarded to all operatives and clerks according to wage groups mainly on the grounds that the factory area being away from the residential areas there was difficulty in securing suitable accommodation at moderate rates near about the factory and that it was to the advantage of both the employers and the employees if the latter live in close quarters of the factory. The same considerations do not apply in this case. To find houses for the work-people is not the sole responsibility of the employer. In fixing the basic wages of the employees a certain percentage of pay was taken into account as being the normal cost of house rent. The Company's financial position may not be unsound, but there is no gainsaying the fact that its position in the trade was not as good as in the previous years. I do not think I would be justified in imposing a further financial burden on the Company in addition to what the Company has to bear under the award on the first issue. Accordingly I feel unable to allow the claim of the Union on the question of house allowance which stands rejected.

Issue No. 4.—Facilities for Recreation.

The Union's demand under this issue is that there should be arrangement for free reading room and library with radio sets, arrangement for indoor and outdoor games, for educating cinema shows and excursions, etc. The Company has no objection to erect rest sheds in accordance with the directions given in the award of the Major Engineering Tribunal in 1948. The Company has also accepted the proposal for installation of a microphone and record player for the purpose of broadcasting factory announcements, talks on education, social hygiene, etc., and also music and songs as amenity measures during the period of recess. Arrangements for such an installation are said to be well in hand. I direct that the Company would erect a rest shed with arrangements for the above facilities completed within three months from the date of enforcement of this award. I propose to make no further direction in the present financial condition of the Company. This is my award on issue No. 4.

Issue No. 5. Medical Aid.

The Company has a qualified Medical Officer whose services are available in the factory between 1 and 4 p.m. In addition to that there are two trained Dressers to attend to the workers from 8 a.m. to 10 p.m. in order to give first aid to the injured during the absence of the Medical Officer. The Company also bear the costs of medicines and incidental charges in connection with the injury and surgical cases and also annually subscribes to the Howrah General Hospital to provide for cases requiring hospital

treatment. The factory is a very big factory with a total strength of workmen of about 740. It is desirable that a whole-time Medical Officer should be employed for attending to the ailing employees of the Company during the working hours, besides the Dressers. It has been complained that the Doctor charges the labourers for medicines and injections supplied from the dispensary. This appears to be against the Company's wishes as indicated in the written statement. My award on this issue therefore, is that the Company should engage a whole-time Doctor and supply free, as far as practicable, medicines and injections to its ailing employees during the work period. The Union's claim for providing free beds in the dispensary and also in the Jadavpore T.B. Hospital is rejected. The directions given in this part of the award are to be complied with within a month from the date of operation of the award.

Issue No. 6.—Canteen.

At present there is no canteen inside the factory as contemplated under the Factories Act, 1948, although the Company had undertaken to start a canteen as far back as in 1948. The Company is directed to start a canteen in accordance with the provisions of the Factories Act, 1948, and provide for refreshment to the workmen during the recess period, as soon as possible and not later than the 1st February 1952. The responsibility for appropriate management of the canteen should be with the Company. A Committee with representatives of both the employers and the employees should be formed to assist the management in running the canteen properly. Refreshment should be supplied to the employees at such prices as would be just sufficient to meet the costs of maintaining the canteen.

Issue No. 7.—Retiring Benefits.

It appears that the Company has introduced a Provident Fund Scheme since the publication of the award of the First Engineering Tribunal in 1948. The Union's claim to gratuity in addition to the provident fund scheme cannot be supported. For the period not covered by the provident fund scheme some retiring benefit in the shape of gratuity ought to be given to the old employees. The award of the First Engineering Tribunal has also laid down a scheme of gratuity for such a period. It is not known whether the Company has adopted the scheme of gratuity according to the Engineering Award, as the said scheme was to remain in force for 12 months from the date of operation of the award. The award does not provide for gratuity in the event of death of an employee before the accrual of a substantial benefit under the provident fund scheme recommended by it. It does not seem to me that the benefit of the scheme of gratuity laid down by the Engineering award as supplementary to the provident fund scheme would be of substantial help to the workers of this Company, as under the existing conditions not many of them are likely to put in more than 25 years' service before retirement. I decide, therefore, that the existing provident fund scheme of the Company should be supplemented for some years to come till a substantial benefit arises to the employees from that provident fund scheme, by the following scheme of gratuity. Gratuity should be paid at the rate of half a month's basic wages for each completed year of service subject to a maximum of 15 months' basic wages. On retirement before completing 15 years of service by reason of superannuation on medical grounds or owing to any other sufficient cause approved by the Company, gratuity should be paid at the rate of half a month's basic wages for each completed year of service. In the case of death before retirement in due course gratuity will be payable to the nominees or heirs at the rate of half a month's basic wages for each completed year of service subject

Schedule.

1. What should be the starting point of the production bonus?
2. Whether the said bonus should be paid on machine output or finished output?
3. Whether the said bonus will become payable on the basis of quantity of goods produced in a week, in a month or in a day?
4. Whether the workers should be given production bonus for the 19·000 feet of reclaimed production for the month of December 1950?
5. Whether the rate of production bonus should be increased to Rs. 2-8 per unit of hundred feet of finished output in excess of the target fixed?

Notices were issued on both the parties who filed written statements stating their respective cases about the matters in dispute.

Issues were framed on 30th October 1951.

The appearances for the parties were as follows:—

For the Union:—Sri P. K. Sanyal, Advocate, Sri Hangsadhaja Dhara, General Secretary, Sri Shibnath Ghoshal, Assistant Secretary of the Union, and others.

For the Company:—Messrs. Dutt and Sen, Solicitors, Sri S. K. Dutt, Legal Adviser of the Company, Sri B. L. Bhindora, Secretary of the Company.

The issues framed were as follows:—

DECISIONS.

Issues Nos. 1 to 5.

On 22nd December 1951, Sri B. L. Bhindora, Secretary of the Company, and Sri Shib Nath Ghoshal, Assistant Secretary of the Union, appeared and filed a joint petition of compromise stating that the dispute between the parties, which related to production bonus, had been settled by mutual agreement in a meeting between the representatives of the parties on 5th December 1951. The original note of the meeting embodying the terms of settlement as finalised, confirmed and signed by both the parties was also

submitted with the application filed before the Tribunal and the parties prayed that the case should be disposed of in accordance with the terms of the settlement. The application filed by the parties on 22nd December 1951, appears as Appendix A to this award and the notes of the meeting between the representatives of the parties on 5th December 1951, which contain the terms of the settlement has been made Appendix B to this award. On a perusal of the terms of the settlement it appears to me that they are reasonable and should be accepted. I, therefore, accept the terms of settlement made between the parties and make an award on the dispute accordingly. Appendix A and Appendix B shall form parts of this award.

These issues are accordingly answered.

And whereas the services of the said Sri S. N. Modak, I.C.S. (Retd.), Chairman, having no longer been available, the said Sri M. C. Banerjee, District Judge, one of the members aforesaid, was appointed as the Chairman, in place of the said Sri S. N. Modak, under this Department order No. 302Dis./7L-24/51, dated the 29th November 1951;

And whereas in exercise of the powers conferred by section 33A of the Industrial Disputes Act, 1947 (XIV of 1947), the said Sri M. C. Banerjee, District Judge, Chairman and Sri P. R. Mukherjee, District Judge, member, have adjudicated upon the said complaint and submitted their award to the State Government;

Now, therefore, in pursuance of the provisions of section 17 of the said Act, the Governor is pleased hereby to publish the said award as shown in the annexure hereto:—

ANNEXURE.

In the matter of an application under section 33A of the Industrial Disputes Act filed by Makbul Jamadar, a workman of Delta Jute Mills in connection with Government order No. 5521Lab., dated 25th September 1950.

BEFORE THE INDUSTRIAL TRIBUNAL, WEST BENGAL.

PRESENT:

1. SRI M. C. BANERJEE, *District Judge, Chairman.*
2. SRI P. R. MUKHERJEE, *District Judge, Member.*

For the workman: None.

For the Jute Mills: Sri M. C. Addy, Law Officer.

This is an application under section 33A of the Industrial Disputes Act, 1947, as amended by the Industrial Disputes (Appellate Tribunal) Act, 1950, by one Makbul Jamadar, a weaver of the Delta Jute Mills. It is stated by the petitioner that a criminal case was started against him at the Howrah Court and he was asked by the aforesaid mill authorities not to join the services till the disposal of the said case. It is further stated that the petitioner was acquitted on 30th September 1950 and immediately after acquittal he went to join his duties but was not allowed to do so. The petitioner also states that the Company explained its refusal to employ him by stating that he had been dismissed for misconduct owing to absence without leave. The petitioner claims that his dismissal was unlawful and that he should be reinstated with compensation. The Company filed a written statement stating that the aforesaid workman had been dismissed for absence without leave for more than 10 days which was a misconduct entailing dismissal under rule 14(*e*)(*iv*) of the standing orders of the Company. It is further stated that the workman was dismissed on 10th May 1950 which was a date prior to the setting up of the Tribunal under Government order No. 5521Lab., dated 25th September 1950, and in these circumstances there was no contravention of the section 33 of the Industrial Disputes Act and the present application was not maintainable in law. The following issues arise for decision:—

Issues.

1. Is the petition maintainable in law?
2. Was there any contravention of section 33 of the Industrial Disputes Act—if so, is the petitioner entitled to be reinstated with compensation?

DECISIONS.

Issues Nos. 1 and 2.

No one appeared on behalf of the petitioner on the date of the hearing. The petitioner was also absent. The Company examined O.P.W. 1 Sri P. K. Dutt, Labour Officer, and proved documents, exhibits 1, 2 and 3. Exhibit 1 is the weekly service record of the Company, exhibit 2 is the back wages register and exhibit 3 is the service record of the workman Makbul Jamadar. O.P.W. 1 states that Makbul was appointed in 1927 and he left the services of the Company on 20th January 1950 and that he was dismissed for long absence on 10th May 1950. Exhibit 1 shows that Makbul was absent from 20th January 1950 and was dismissed on 10th May 1950. Exhibit 2—back wages register—shows that Makbul was paid his back wages on 26th May 1950. These facts are also borne out by the entries in the service record of the workman—exhibit 3. It, therefore, appears that Makbul Jamadar, weaver No. 130, was dismissed from the Company's services on 10th May 1950.

The proceedings before the Tribunal in the main adjudication involving 86 Jute Mills including Delta Jute Mills arose on the order of reference No. 5521Lab., dated 25th September 1950. Section 33A of the Industrial Disputes Act authorises an employee to make a complaint before the Tribunal when the employer does any of the acts mentioned in clauses (*a*) and (*b*) of the section 33 of the Act during the pendency of the proceedings before the Tribunal arising out of a reference under section 10(1)(c) of the Act. As the proceedings before the Tribunal involving 86 Jute Mills in West Bengal including the Delta Jute Mills commenced on 25th September 1950, the dismissal of Makbul Jamadar which took place long before the date of the commencement of the proceedings before the Tribunal, was not hit by section 33 of the Act. The employer did not, therefore, contravene the provisions of the section 33 of the Act during the pendency of the proceedings before the Tribunal and the present application by the employee under section 33A of the Act is, therefore, clearly not maintainable. In view of the aforesaid circumstances we are of opinion that the [illegible] of the Act by Makbul Jamadar is

DIRECTORATE OF AGRICULTURE WEST BENGAL

Calcutta, the 19th November 1951.

Final Forecast of the Jute Crop of West Bengal for the year 1951.

Season.—Since the issue of the Preliminary Forecast, the weather and its effect on the crop can, in general, be described as favourable, even though drought prevailed for some time in certain areas. Intermittent rains and sunshine during the growth period had a good effect on the crop. Pest attacks were reported from many places but proper steps were promptly taken for effective control thereof. Difficulties in the retting of jute were experienced in some areas owing to scarcity of water.

Area and yields.—Eight lakhs, seventy-six thousand and one hundred acres have been estimated to be under jute this year compared to 650,900 acres of last year. This increase is due to favourable weather condition, high price of jute and grow more jute propaganda by the Jute Development personnel and the Agricultural Extension staff.

The total yield of the crop has been estimated at 2,330,400 bales this year as against 1,496,000 bales in the previous year.

The average yield per acre is estimated at 2·66 bales in the year under report compared to 2·30 bales in the last year.

H. K. NANDI,
Director of Agriculture, West Bengal.

[Letter No. C.O./4358-51, dated 29th December 1951, of the Metropolitan Bank, Ltd., Calcutta—Dy. TM-2790—Ble TM/8 of 48-49.]

Subject:—Instructions regarding bills payable by the Accountant-General, West Bengal, within the current financial year.

No. TM/336.—24th January 1952.—In order to ensure payment before the close of the financial year, all travelling allowance, contingent and other bills payable within the year should, as far as practicable, be presented at the counter of this office by the 14th March 1952. The words "To be paid on or before the 31st March 1952" should be written prominently in red ink on the top of each bill. In respect of charges actually incurred, or claims accruing on or after the 14th March, the bills should be presented with the utmost expedition without losing even a single day. Please remember that during the last week of March this office is pre-occupied with the passing of monthly pay bills payable on the 1st working day of April.

2. Three clear days are required by this office to complete all processes connected with pre-audit. On the fourth working day from the date of presentation of a bill, the payee or his messenger should call at the delivery counter to demand payment. If for any reason payment cannot be obtained on that day, he should call on the next day, or on the second or third following day—should it become necessary. Any complaint regarding undue delay in payment should be lodged with the gazetted officer in charge of the section. No attempt should be made to get into direct touch with the sectional staff.

3. It should be particularly borne in mind that unpassed bills are not returned by post; they are required to be received back at the counter on surrender of tokens.

4. Please take all possible care to see that the bills presented are free from defects and irregularities. There may not be time left for resubmitting the bills when once returned unpassed with audit objection.

5. It will facilitate the payment of bills if the following instructions are borne in mind:—

(*a*) If the appropriation for the current year is, likely to be or has already been exceeded, an additional appropriation should be obtained in time to meet the excess and the order sanctioning the additional appropriation attached to the bill.

(*b*) If any charge requiring sanction of a higher authority is claimed in a bill the sanction should be attached to it. As no payment can be made on the authority of copies of orders, the sanctioning authority should be requested to communicate the orders to this office in time.

(*c*) If no distribution of any appropriation has yet been made, formal orders of the competent authority sanctioning the distribution should be attached to the bill.

(*d*) A bill extract giving particulars of the major, minor and detailed heads of account to which the amount of the bill is chargeable and the designation of the officer controlling the expenditure should invariably be attached to bills.

6. Between the 14th and the 31st March please make it a point to check your Bill Register every day with a view to receive all payments in good time.

7. As a special concession to payees, the Cash Payment and Cheque Delivery Counters of this office will be kept open till 4-30 p.m. on the 31st March. No payment will be made after that hour.

DIRECTORATE OF AGRICULTURE
WEST BENGAL

Calcutta, the 29th December 1951.

Final Forecast of Autumn Rice Crop of West Bengal for 1951-52.

[*Note.*—The figures of last year except that of Cooch Behar shown in this forecast are based on the results of sample survey conducted by the Indian Statistical Institute while the figures of this year are based on the results of sample survey conducted by the State Statistical Bureau. The figures of Cooch Behar for last year have been estimated by the staff of this Directorate.

The estimates of outturn for both this year and last year are based on the results of crop cutting experiments by random sampling method.]

Seasons.—As reported in the preliminary forecast the sowing was hampered to some extent in most of the districts by drought in the early stage. The growth of the crop was also adversely affected in most of the districts by another drought which occurred later. The weather conditions have, however, been somewhat favourable in some districts in the later part of the season.

Area and yield.—Eleven lakhs sixty-eight thousands and five hundred acres have been estimated to be under autumn rice this year compared to 1,124,300 acres last year.

The total outturn of the crop for the State as a whole in terms of cleaned rice has been estimated at 359,700 tons this year as against 335,900 tons last year.

The average yield of cleaned rice per acre for the State as a whole is estimated at 8·380 maunds this year as against 8·132 maunds last year.

for Director of Agriculture, West Bengal.

"(*1*) Where the Income-tax Officer is satisfied that in respect of any previous year the profits and gains distributed as dividends, if any, by any company up to the end of the twelfth month after the end of that previous year, are less than sixty per cent. of the assessable income of the company of that previous year, as reduced by—

(*a*) the amount of income-tax and super-tax payable by the company in respect thereof,

Provided further that where the company has distributed not less than fifty-five per cent. of its assessable income, as reduced by the amounts aforesaid, the Inspecting Assistant Commissioner of Income-tax shall not give his approval to any order proposed to be passed by the Income-tax Officer under this section, unless after service of a notice from the Inspecting Assistant Commissioner, the company fails to make within two months of the service of such notice a further distribution of its profits and gains so as to bring up the total distribution to not less than sixty per cent. of the assessable income of the company of the previous year concerned, as reduced by the amounts as aforesaid:

Provided further that this sub-section shall not apply to any company in which the public are substantially interested or to a subsidiary company of such a company if the whole of the share capital of such subsidiary company has been held by the parent company or by the nominees thereof at the end of that previous year.

Explanation.—For the purposes of this sub-section, a company shall be deemed to be a company in which the public are substantially interested only if at any time during that previous year its shares have been offered for sale in a recognised stock exchange in the taxable territories and it is neither a private company within the meaning of the Indian Companies Act, 1913 (VII of 1913), nor a company in which shares carrying more than fifty per cent. of the total voting power have, at any time during that previous year, been held or controlled by less than six persons";

(*c*) after sub-section (*5*), the following sub-sections shall be inserted, namely:—

"(*6*) Any notice required under the provisions of this section may, where the company is in liquidation, be served on the liquidator, and the liquidator shall be responsible for doing all matters or things required to be done by or on behalf of the company and for the due payment of any tax payable by or recoverable from the company under the provisions of this section.

(7) In the case of a company which is not a company in which the public are substantially interested within the meaning of sub-section (1), the accumulated profits of the company of the period from the end of the last previous year for which it has made a return of its total income, to the date on which an order or resolution for winding it up is made shall, for the purposes of assessment of its shareholders, be deemed to have been distributed as dividend amongst the shareholders on the date of that order or resolution, and the provisions of sub-sections (3), (4), (5) and (6) shall apply in the like manner and to the same extent as they apply in the case of an order under sub-section (1)."

26. Amendment of section 24, Act XI of 1922.—In section 24 of the principal Act,—

(a) in sub-section (1), for the first proviso, the following provisos shall be substituted, namely:—

"Provided that in computing the income, profits and gains chargeable under any head or the loss of profits and gains falling under any head, so much of any loss as would but for the loss have accrued or arisen within the State of Jammu and Kashmir, shall not be taken into account except to the extent of the amount of income, profits and gains, if any, which would be exempt under the provisions of clause (c) of sub-section (2) of section 14:

Provided further that in computing the profits and gains chargeable under the head "Profits and gains of business, profession or vocation", any loss sustained in a business consisting of speculative transactions shall not be taken into account except to the extent of the amount of profits and gains, if any, in any other business consisting of speculative transactions.";

(b) in sub-section (2),—

the assessee or the Commissioner, as the case may be, may, in any case falling within clause (*a*) of this sub-section, within six months from the date on which he is served with the notice of refusal, and in any case falling within clause (*b*) of this sub-section, within two months from the date on which he is served with the notice of rejection, apply to the High Court, and the High Court may, if it is not satisfied with the correctness of the decision of the Appellate Tribunal, require the Appellate Tribunal to state the case and refer it to the High Court and c

receipt of any such requisition, the Appellate Tribunal shall state the case and refer it accordingly:

Provided that if in any case where it has been required by an assessee to state a case, the Appellate Tribunal refuses to do so on the ground that no question of law arises, the assessee may, within thirty days from the date on which he receives notice of the refusal to state the case, withdraw his application, and if he does so the fee paid by him under sub-section (*1*) shall be refunded.

(*3*) Section 5 of the Indian Limitation Act, 1908 (IX of 1908) shall apply to an application to the High Court under sub-section (*2*).

(*4*) If on an application made under sub-section (*1*), the Appellate Tribunal is of opinion that either on account of the importance of any question of law involved in the case or on account of a conflict in the decisions of different High Courts in respect of any particular question of law arising therefrom, it is expedient that a reference should be made direct to the Supreme Court, the Appellate Tribunal may draw up a statement of the case and refer it direct to the Supreme Court.

(*5*) If the High Court or the Supreme Court is not satisfied that the statements in a case referred to it under this section are sufficient to enable it to determine the questions raised thereby, the Court may refer the case back to the Appellate Tribunal to make such additions thereto or alterations therein as it may direct in that behalf.

(*10*) For the purposes of this section, 'the High Court' means, if the place of assessment of the assessee is in the State of—

(*a*) Uttar Pradesh or Vindhya Pradesh,—

"and shall be decided in accordance with the opinion of such Judges or of the majority (if any) of such Judges:

Provided that where there is no such majority, the Judges shall state the point of law upon which they differ, and the case shall then be heard upon that point only by one or more of the other Judges of the High Court, and such point shall be decided according to the opinion of the majority of the Judges who have heard the case, including those who first heard it."

67. Amendment of section 67, Act XI of 1922.—In section 67 of the principal Act, for the words "No suit shall be brought in any civil court to set aside or modify an assessment made under this Act" the following shall be substituted, namely:—

68. Amendment of section 67A, Act XI of 1922.—In section 67A of the principal Act, for the words "and the time requisite" the words "and, where a copy of the order has not been served on the person concerned, the time requisite" shall be substituted.

69. Amendment of section 67B, Act XI of 1922.—In section 67B of the principal Act, for the words "as if the provision in force in the preceding year or the provision proposed in the Bill then before the Parliament, whichever is more favourable to the assessee", the words "as if the provision proposed in the Bill then before Parliament" shall be substituted.

(*2*) Without prejudice to the generality of sub-section (*1*) no assessment or demand made upon an assessee shall be deemed to be invalid merely on the ground of a mistake therein as to the name or surname of the person liable or the description of the status in which he is chargeable to tax or as to the description of any profits or property or year or years or to the amount of tax charged."

71. Amendment of the Schedule, Act XI of 1922.—In the Schedule to the principal Act.—

(*d*) for rule 8, the following rule shall be substituted, namely:—

"8. For the purposes of this rule, the world income in relation to life insurance business of a person not resident in the taxable territories shall be computed in the manner laid down in these rules for the computation of the profits and gains of life insurance business carried on in the taxable territories."

STATEMENT OF OBJECTS AND REASONS.

The object of the Bill is to give effect to such recommendations of the *Income-tax Investigation* Commission as have been accepted by Government. In addition, the Bill includes—

(a) certain amendments which were originally included in the Taxation Laws Amendment Bill which was introduced in the Budget Session of 1949 but was withdrawn with a view to its provisions being included in a comprehensive Bill which was then under contemplation;

(b) provisions for exempting foreign profits of non-residents when remitted to India within the first two years of their becoming resident in India, so as to enable such persons to bring in their savings to India without any tax liability:

(c) provisions for the granting of full relief up to the limit of the Indian tax in respect of foreign income-tax paid by residents of India on income which does not arise and cannot be deemed to arise in India—a provision which would encourage Indian Nationals to open branches in foreign countries without being subjected to double taxation;

(d) such other amendments as the experience of the working of the Act has indicated to be necessary or desirable. Some of these amendments give relief to assessees, while others are intended to facilitate collection of tax and to close up loop-holes of evasion.

2. The notes on clauses explain the object underlying each of the important amendments undertaken.

Notes on Clauses.

[The references to Recommendations are to the Serial No. of the recommendations of the Income-tax Investigation Commission given in the Summary on pages 203 to 244 of the Report.]

Clause 2 amends the definitions in section 2. The important amendments are—

Sub-clause (c)(iii) implements recommendation No. 35. It seeks to check evasion of super-tax by shareholders of private companies by drawing the profits as loans instead of as dividends.

Sub-clause (d).—The definition of income has been redrafted for the sake of clarity. Sub-clause (iv) of the definition gives effect to recommendation No. 68. The premium received in connection with a lease will be treated as the income of the lessor where the period of lease does not exceed 50 years. The premium would be assessed proportionately over the period of the lease, but where the lease exceeds 20 years, the premium will be spread over 20 years, and assessed. Sub-clause (v) of the definition treats as income compensation received on the termination of a managing agency.

Sub-clause (*f*) implements recommendation No. 159 and is merely clarificatory.

Sub-clause (*h*) gives effect to recommendation No. 81 and will enable the Income-tax Officer to give credit for the tax on dividends to the person in whose total income the dividend is included.

Clause 3 amends section 4 of the Income-tax Act.

Sub-clause (*a*)(*i*) implements the concession announced by Government in 1950 to exempt from tax foreign profits of non-residents which are brought into India within the first two years of their becoming residents of India. The omission of the original second proviso is consequential to the abolition of the category of persons 'not ordinarily resident'. *See* also clause 5 and recommendations Nos. 2 and 25.

Sub-clause (*a*)(*ii*) has the effect of bringing under charge all Government salaries irrespective of the place of payment.

Sub-clause (*a*)(*iii*) inserts an explanation which makes it clear that in the case of certain categories of transactions, where the primary source of income is in India, income actually accrues or arises in India.

Sub-clause (*b*)(*i*) implements recommendations Nos. 52—54 regarding religious and charitable trusts.

Sub-clause (*b*)(*ii*) is intended to check a form of evasion resorted to by employers and employees by describing a part of the remuneration as an allowance to meet expenses to be incurred in connection with the employment. The amendment limits the exemption to actual expenditure incurred by the employee, and brings the law into line with the law in U.K.

Sub-clause (*b*)(*iii*) clarifies that the income of private religious endowments is not exempt.

Sub-clause (*b*)(*iv*) inserts four new exemption clauses.

Clause 4 implements recommendations Nos. 162 and 163 and is clarificatory in nature.

Clause 5 gives effect to recommendations Nos. 2 and 25 and abolishes the category of 'not ordinarily resident' persons. [*See* notes under clause 3, sub-clause (a)(i).]

Clause 6 statutorily recognises as income-tax authorities Directors of Inspection and Inspectors of Income-tax, who are already performing important functions in execution of the Act.

Sub-clause (*g*) implements recommendations Nos. 145—147, by according statutory recognition to the giving of advice and guidance to the Income-tax Officer in important cases by the Director of Inspection, Commissioner or the Inspecting Assistant Commissioner. It also gives these authorities the same powers which an Income-tax Officer has in relation to the making of an assessment.

Clause 7 amends section 5A and removes the statutory bar to the appointment of an Accountant Member as President of the Tribunal, incidentally enhancing the qualifications of Members of the Tribunal.

Clause 17 amends section 15C so as to allow the benefit of exemption to industrial undertakings which commence production before the 31st March, 1954. It also extends the exemption to smaller industries which employ 25 persons or more. The period of exemption has also been extended so that each undertaking which is entitled to exemption gets it for five assessment years.

Clause 18 amends section 16 dealing with inclusions and exclusions in computing the total income.

Sub-clause (*a*)(*i*) gives effect to recommendation No. 168 in a modified form and provides for the income exempt from tax under sections 25(3) and 25(4) being taken into account for the purpose of computing the rate of income-tax payable.

Sub-clause (*a*) (*ii*) allows in computing the income of a partner, deduction of interest on the capital borrowed by him for investment in the firm and salary paid by him to an employee engaged to assist him in the business of the firm.

Sub-clause (*a*)(*iii*) seeks to close up a loophole of evasion by providing for the property settled and all the transactions connected therewith, being treated as the property or transactions of the settler.

Sub-clause (*c*) gives effect to recommendations Nos. 77 and 78 and also makes it clear that section 16(3) applies to the husband or the wife as the case may be.

Clause 19 amends section 18 relating to deduction of tax at source.

Sub-clauses (*a*) *to* (*e*), (*g*) *and* (*h*) are consequential to the amendment of section 17(1) of the Income-tax Act by the Indian Finance Act, 1951.

Sub-clause (*c*) also relieves the hardship caused by requiring deduction of tax from the entire amount paid to a non-resident, when only a portion thereof may be liable to tax in the hands of the non-resident as "income".

Sub-clause (*f*) gives effect to recommendation No. 81 by adding a proviso to section 18(5) and also secures that credit for tax is given only where the tax has been credited to Government account.

Sub-clause (*i*) makes the private employer himself or in the case of a company or co-operative society, the company or society itself and its principal officers responsible for the deduction of tax and for any consequences of non-deduction. This is necessary to safeguard Government revenue.

Clause 20.—Sub-clauses (a) and (b) are consequential to the variation of the taxable minimum.

Sub-clause (*c*) enables the Income-tax Officer to call for a statement of assessee's current year's income and his accounts if he has reasons to believe that the tax which the assessee has been required to pay or has offered to pay is less than the tax which he ought to pay.

Clause 21.—A new section 20B is inserted in order to ensure the super-tax payable on interest on securities and dividends is not evaded. If a person who draws the interest or dividend claims that he is drawing it on behalf of another person, he is required to disclose the particulars of the persons on whose behalf he is drawing the interest.

Clause 22.—The amendment made by this clause is consequential to the amendment of section 7 of the Income-tax Act [*see* notes to sub-clause (i) of clause 8].

Clause 23 amends section 22 relating to the submission of return of total income and accounts.

Sub-clauses (*a*) *and* (*b*) implement recommendation No. 87.

Sub-clause (*c*) requires a person who has sustained a loss, which can be carried forward to subsequent years to make a return of that loss, within the period prescribed under section 22(1). It is necessary to ascertain the quantum of loss in the year in which it is incurred and not in a later year in which it can be set off, as by that time the evidence for proving the loss may not be available. This sub-clause also implements recommendation No. 95 by requiring that the return of income filed by an assessee liable to super-tax should be accompanied by audited statements.

Sub-clause (*d*) gives effect to a part of recommendation No. 93. It also empowers the Income-tax Officer to call for information which is in the possession of the assessee and which the Income-tax Officer considers material for the purposes of the assessment.

Clause 24 amends section 23 relating to procedure for assessment.

Sub-clause (*b*) inserts a new sub-section to make it clear that the onus of proving the correctness of his return is on the assessee.

Clause 25 amends section 23A dealing with the compulsory distribution of dividends in the case of private companies.

Sub-clause (*a*) gives effect to recommendations Nos. 30 to 33 and provides that in determining the amount available for distribution, there shall be deducted obligatory charges, which may not have been allowed in computing the assessable income of the company and amounts transferred to reserves by a Banking company under section 17 of the Banking Companies Act. Private investment trust companies would be required to distribute 100 per cent. of their profits. The sub-clause also brings the definition of a company, in which the public are substantially interested into line with that adopted in the Finance Acts since 1949. In a genuine public company more than 50 per cent. of the voting power must be with the public. Non-resident companies are not affected by this amendment, as section 23A is not applicable to them.

Sub-clause (*c*) gives effect to recommendation No. 85.

Clause 26 amends section 24 relating to the set off of losses in computing the total income.

Sub-clause (*a*), besides making a clarificatory amendment, inserts a new proviso, which secures that speculation losses would be set off against speculation profits only and not against any other income. This would check a tendency on the part of assessees to claim speculation losses but not to admit speculation profits.

Sub-clause (*b*)(*iii*) implements the principle underlying recommendation No. 7 regarding foreign losses of companies treated as resident. It also provides for the allocation of the loss carried forward from one year to another between the various businesses to which the loss pertains. This latter provision is, in essence, clarificatory.

(iii) to enable the Income-tax authorities to impound books of account produced before them, and

(iv) to give power to the Income-tax authorities and the Tribunal to deal with cases of "contempt" under the relevant provisions of the Criminal Procedure Code.

The clause also implements recommendations Nos. 93 and 141 and gives powers of search and seizure to Income-tax authorities in the lines of section 6(9) of the Taxation on Income (Investigation Commission) Act, 1947.

Clause 39 gives effect to recommendation No. 56 and the latter part of recommendation No. 82. The clause also provides for certain kinds of information being called for and for proper verification of statements furnished under this section.

Clause 40.—Sub-clause (*i*) provides for the assessment of the income of a private religious trust or endowment in the hands of the manager or *shebait* and is clarificatory. [*See* notes to clause 3(b)(iv).]

Sub-clause (*ii*) redrafts the first proviso to section 41 to make it clear that the maximum rate of income-tax is applicable to income receivable on behalf of an artificial or juridical person such as a deity, and to income which is not specifically receivable on behalf of any individual, that is, income applied to the maintenance of buildings, monuments, etc.

Clause 41 amends section 42 dealing with income deemed to accrue or arise in India.

Sub-clause (*a*) makes a few changes consequential to the amendment of section 4 by clause 3(a)(iii) and also gives effect to a part of recommendation No. 6 by clarifying that the agent is the statutory agent appointed under section 43 and that all the chargeable income of the non-resident can be assessed in his hands.

Sub-clause (*b*) gives effect to another part of recommendation No. 6 and empowers the Income-tax Officer to freeze, in advance of assessment, the assets of the non-resident in the hands of persons other than the statutory agent.

Sub-clause (*c*) redrafts sub-section (2) and omits reference to the category of "not ordinarily resident" persons. [*See* notes to clause 3(a)(i) and clause 5.]

Sub-clause (*d*) will enable the Central Board of Revenue to prescribe by rules the proportion of profits that will be deemed to accrue or arise in India according to the extent of operations carried out in India. The non-resident can thus readily ascertain the extent of his liability to tax.

Clause 42 gives effect to the principle of recommendation No. 28 and enables the tax due from any company being realised from its subsidiaries. In the case of a privately controlled company, provision has been made to realise the tax from its shareholders as well.

Clause 43 redrafts Chapter V-A so as to extend the procedure for assessment of profits and recovery of tax laid down in that Chapter with respect to tramp steamers, to aircraft operated by non-resident air transport concerns which have no regular offices or agencies in India. At

Registered No. C207

The Calcutta Gazette

present the tax due on the earnings of such aircraft is escaping tax. The assessment in the case of aircraft will be made by Customs officers instead of by Income-tax Officers as in the case of tramp steamers. The profits will be assumed provisionally to be 1/16th of the fare and freight earned by the aircraft, but the person concerned can claim that a regular assessment may be made on him in any assessment year, in which case necessary adjustments will be made.

Clause 44 makes certain amendments in section 44-D which are consequential to the abolition of the category of "not ordinarily resident" persons. [*See* notes to clause 3(a)(i) and clause 5.]

Clause 45.—The Income-tax Investigation Commission found that influential persons held a large number of shares in several companies in fictitious names. While thus in virtual possession of the shares they are enabled to conceal their income and do not pay any tax on the income from the shares. A similar evasion is also practised by making deposits and loans in the names of fictitious persons. The proposed new section 44G will provide for the transfer of the shares, debentures, deposits, etc., to the Government, only after the taking of adequate steps in the matter, it is not possible to discover the true owner. Necessary safeguards are provided to enable the true owner to establish his claim, including safeguards by way of appeal, reference to a High Court, etc.

Clause 46 inserts a new section 45-A providing (in pursuance of a separate recommendation of the Commission *re. benami* transactions) for the recovery of tax from the ostensible or legal owner of assets, where the income from those assets or from dealings in those assets is included in the income of any person other than the ostensible owner. The liability of the legal owner is, of course, limited to the tax on the income from such assets. Notice of the assessment to the ostensible owner is a condition precedent to the recovery of tax from the assets.

Clause 47 amends section 46 relating to the mode and time of recovery of tax.

(iii) to enable the Income-tax authorities to impound books of accou produced before them, and

(iv) to give power to the Income-tax authorities and the Tribunal deal with cases of "contempt" under the relevant provisions the Criminal Procedure Code.

The clause also implements recommendations Nos. 93 and 141 and give powers of search and seizure to Income-tax authorities in the lines section 6(9) of the Taxation on Income (Investigation Commission) Act 1947.

Clause 39 gives effect to recommendation No. 56 and the latter part o recommendation No. 82. The clause also provides for certain kinds o information being called for and for proper verification of statement furnished under this section.

Office of the Accountant-General, West Bengal

NOTIFICATION.

Subject:—Instructions regarding bills payable by the Accountant-General, West Bengal, within the current financial year.

No. TM/336.—24th January 1952.—In order to ensure payment before the close of the financial year, all travelling allowance, contingent and other bills payable within the year should, as far as practicable, be presented at the counter of this office by the 14th March 1952. The words "To be paid on or before the 31st March 1952" should be written prominently in red ink on the top of each bill. In respect of charges actually incurred, or claims accruing on or after the 14th March, the bills should be presented with the utmost expedition without losing even a single day. Please remember that during the last week of March this office is pre-occupied with the passing of monthly pay bills payable on the 1st working day of April.

2. Three clear days are required by this office to complete all processes connected with pre-audit. On the fourth working day from the date of presentation of a bill, the payee or his messenger should call at the delivery counter to demand payment. If for any reason payment cannot be obtained on that day, he should call on the next day, or on the second or third following day—should it become necessary. Any complaint regarding undue delay in payment should be lodged with the gazetted officer in charge of the section. No attempt should be made to get into direct touch with the sectional staff.

3. It should be particularly borne in mind that unpassed bills are not returned by post; they are required to be received back at the counter on surrender of tokens.

4. Please take all possible care to see that the bills presented are free from defects and irregularities. There may not be time left for resubmitting the bills when once returned unpassed with audit objection.

5. It will facilitate the payment of bills if the following instructions are borne in mind:—

(*a*) If the appropriation for the current year is, likely to be or has already been exceeded, an additional appropriation should be obtained in time to meet the excess and the order sanctioning the additional appropriation attached to the bill

(*b*) If any charge requiring sanction of a higher authority is claimed in a bill the sanction should be attached to it. As no payment can be made on the authority of copies of orders, the sanctioning authority should be requested to communicate the orders to this office in time.

(*c*) If no distribution of any appropriation has yet been made, formal orders of the competent authority sanctioning the distribution should be attached to the bill.

(*d*) A bill extract giving particulars of the major, minor and detailed heads of account to which the amount of the bill is chargeable and the designation of the officer controlling the expenditure should invariably be attached to bills.

6. Between the 14th and the 31st March please make it a point to check your Bill Register every day with a view to receive all payments in good time.

7. As a special concession to payees, the Cash Payment and Cheque Delivery Counters of this office will be kept open till 4-30 p.m. on the 31st March. No payment will be made after that hour.

ORDER.

No. 155Dis./D/11L-7/52.—25th January 1952.—Whereas under the Government of West Bengal, Labour Department, orders No. 5232Lab., dated the 18th August 1951, and No. 91Dis/D-11L-99(B)/51, dated the 21st September 1951, the industrial dispute between (1) Messrs. B. K. Paul & Co., Ltd., (2) Messrs. B. K. Paul & Co. (Agency), Ltd., and (3) Messrs. B. K. Paul & Co. (Edwards Tonic), Ltd., 1 and 3, Bonefield Lane, Calcutta, and their workmen as represented by B. K. Paul & Co., Ltd., Employees' Union, 23A, Netaji Subhas Road, Top Floor, Calcutta, was referred for adjudication to the Fourth Industrial Tribunal constituted by Sri M. C. Banerjee, District Judge;

And whereas during the pendency of proceedings before the said Tribunal, The B. K. Paul & Co., Ltd., Employees' Union of 23A, Netaji Subhas Road, Top Floor, Calcutta, on behalf of Banshi, an employee of the said Company, made a complaint in writing alleging that the said Company had discharged the said employee immediately before the commencement of the said proceedings;

And whereas in exercise of the powers conferred by section 33A of the Industrial Disputes Act, 1947 (XIV of 1947), the said Fourth Industrial Tribunal Sri M. C. Banerjee has adjudicated upon the said complaint and submitted his award to the State Government;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

FOURTH INDUSTRIAL TRIBUNAL, CALCUTTA.

PRESENT: SRI MATISH CHANDRA BANERJEE, *District Judge, Tribunal.*

In the matter of an application under section 33A filed by Messrs. B. K. Paul & Co., Ltd., Employees' Union on account of discharge of Banshi I in connection with Government order No. 5232Lab., dated 18th August 1951, and No. 91Dis./D-11Z-99B/51, dated 21st September 1951.

AWARD.

Bangshi I of Messrs. B. K. Paul & Co., Ltd., applies under section 33A of the Industrial Disputes Act, 1947 (XIV of 1947), stating that on the 30th Aswin 1358 B.S. (17th October 1951) his employer Messrs. B. K. Paul & Co., Ltd., gave a notice to him terminating his services from 1st Kartick 1358 B.S. It is further stated that as there was a proceeding before the Tribunal pending at the date of the termination of service between Messrs. B. K. Paul & Co., Ltd., and the workmen of the Company, the Company contravened the provisions of section 33 of the Industrial Disputes Act by discharging the applicant. It is also stated that the act of the Company in discharging the applicant has been grossly unfair, unjust, arbitrary and *mala fide* and amounts to a clear victimisation of the applicant for his trade union activities. The applicant, therefore, prays for reinstatement to his former post of service and for recovery of all wages and allowances for the period of his non-employment by way of compensation.

New Delhi, the 26th October 1951.

THE COMMISSIONERS FOR THE PORT OF CALCUTTA.

Summary of the Minutes of the Proceedings of the Commissioners' 2412th Meeting, held on the 14th January 1952.

AT the 2412th Meeting of the Commissioners held on the 14th January 1952, the following business was transacted:—

(1) **Drafts in the River Hooghly.**—The Chairman's report on the above subject which was placed before the meeting traced the opinion and views expressed by experts since 1853 on the future of the Hooghly as a navigable river and the remedial measures advocated by them culminating in the testing out at Poona on the River Models of the various recommendations made by experts up to date so as to obviate the mistakes made in the past when money was thrown away on works which never answered their purpose. The experiments at Poona have not progressed sufficiently long to yield any firm conclusions, but there are hopeful indications that at reasonable cost training works at some of the troublesome bars and crossings will go a long way to assist the dredging programme and hasten the achievement of the target of a minimum draft of 26 feet throughout the year. The Chairman maintained that despite various adverse factors the trade of the Port had not materially suffered as revealed by the actual drafts declared during the years 1950 and 1951 and the average per ship of tonnage handled during the last twelve years which provided a fair index of the working of the Port.

The Chairman's proposal to publicise the note as a newspaper article was approved.

(2) **Representation from Employees.—Report of the Special Committee on the rationalisation of the scales of pay of non-technical Class III posts in the pay range of Rs. 60 to Rs. 400.**—The Commissioners decided to implement the Special Committee's recommendations with effect from the 1st January 1952.

(3) **Ganga Barrage Scheme.**—The Commissioners decided to inform the Government that they were spending in addition to the contribution previously agreed to, about Rs. 80,000 per annum on surveys of the Upper Reaches of the River Hooghly and the feeder rivers and the collection of data needed for the investigation of the Ganga Barrage Scheme and that in the circumstances and in view of their present financial stringency it was not possible for them to increase their contribution towards the cost of the above scheme. They also decided to press the Government to expedite the setting up of a committee representing the Commissioners' interests as well as those of the Central and the West Bengal Governments.

(4) **Accidents to Hawser Boat No. 5 and the S.S. "Jag Vijay".**—The Deputy Conservator's recommendations were approved.

The Commissioners also sanctioned routine establishment proposals and routine proposals relating to execution of works, purchase of material, remission of charges, grant of leases, etc.

(*2*) The amount which should be at the credit of a Sinking Fund shall be calculated on the basis of the present value of all future payments required to be made to such fund under the provisions of this Act, on the assumption that all investments are regularly made and the rate of interest as originally estimated is obtained therefrom.

The value of securities belonging to a Sinking Fund shall be their current value, unless they fall due for redemption at par or above before maturity of the Fund in which case their current value shall be taken as their redemption value, except in the case of Calcutta Municipal Debentures which shall always be valued at par, provided that the Corporation shall make good immediately any loss which may accrue on the actual sale of such debentures at the time of repayment of the loan.

(*3*) The Corporation shall forthwith pay into any Sinking Fund any amount which the Accountant-General may certify to be deficit, unless the State Government specially sanction a gradual readjustment.

(*4*) If the cash and the value of the securities at credit of any Sinking Fund are in excess of the amount which should be at its credit, the Accountant-General shall certify the amount of such excess sum, and the Corporation may thereupon transfer the excess sum to the Municipal Fund.

(*iii*) the annual value of a *bustee* shall be deemed to be the gross annual rent at which the land contained within it, excluding the lands which have been left vacant for the purpose of giving access to any hut in the *bustee* or for the purposes of any *bustee* street prescribed in or under a standard plan approved by the Corporation under Chapter XXIII, might reasonably be expected to let from year to year, *plus* the gross annual rent at which the huts erected thereon might reasonably be expected to let from year to year, after deducting therefrom the rent of the land and an allowance of ten *per cent.* for the cost of repairs and for all expenses necessary to maintain such huts in a state to command such gross rent.

(*3*) The sum deducted under sub-section (*1*) shall be retained by the owner of the land contained within the *bustee*—

(*a*) as a set-off against the expenses which may be incurred in collecting the portion of the rate recoverable under sub-section (*2*) from the owners of huts, and

(*b*) as a commutation of all refunds in respect of huts which are vacant or which may be removed or destroyed during the continuance of the period for which the rate is leviable.

Consolidated rate not payable on new and enlarged huts in a *bustee*.

203. The consolidated rate shall not be payable on account of any new huts built or any huts enlarged in a *bustee* during the year for which the valuation of the *bustee* remains in force under clause (*a*) of sub-section (*3*) of section 172.

(*2*) If, when the objection has been finally determined, the previous valuation is altered, then—

(*a*) any sum paid in excess shall be refunded or allowed to be set off against any present or future demand of the Corporation under this Act, and

(*b*) any deficiency shall be deemed to be an arrear of the consolidated rate and shall be payable and recoverable as such :

(2) Any land taken possession of under sub-section (*1*) shall forthwith be added to and become part of the said street, and shall vest in the Corporation.

(2) In determining such compensation under section 571, the Court shall make allowance for any benefit accruing to the same premises or any adjacent premises belonging to the same owner from the construction or improvement of any other public street, square or garden, at or about the same time that the public street, square or garden, on account of which the compensation is paid, is closed.

(2) The width of such projected streets, inclusive of space for footpaths, shall not be less than forty feet or, in a *bustee*, twenty feet:

Provided that—

Abandonment of acquisition.

Abandonment of acquisition in consideration of special payment.

367. (*1*) In any case, in which the State Government has sanctioned the acquisition of land under section 366, sub-section (*2*), the owner of the land, or any person having an interest therein greater than a lease for years having seven years to run, may make an application to the Corporation, requesting that the acquisition of the land be abandoned in consideration of the payment by such person of a fee to be fixed by the Corporation in that behalf.

(*2*) The Corporation shall admit every such application if it reaches it before the time fixed by the Collector under section 9 of the Land Acquisition Act, 1894, for making claims in reference to the land : I of 1894.

Provided that unless the application is made by all the persons who have an interest in the land greater than a lease for years having seven years to run, the application shall not be deemed to be admitted unless the person undertakes to pay in one instalment the full fee payable under sub-section (*3*) and thereafter pays such fee.

Explanation.—A mortgagee shall not be deemed to be a person having an interest in the land greater than a lease for years having seven years to run.

(*3*) If the Corporation decides to admit any such application, it shall forthwith inform the Collector, and the Collector shall thereupon stay proceedings for the acquisition of the land, for such period as the Corporation may request, and the Corporation shall proceed to fix a fee in consideration of which the acquisition of the land may be abandoned.

(*4*) In fixing the fee to be paid in consideration of the abandonment of the acquisition of the land, the Corporation shall, so far as it may appear to be practicable, fix a sum which in its opinion represents two-thirds of the increment in the value of the land, which will in its opinion accrue to that land as a result of the improvements effected in the locality by the scheme for the purposes of which the acquisition has been sanctioned.

(*5*) Such fee shall be and remain a charge on the land, in respect of which it has been fixed, until the repayment thereof with interest in the manner hereinafter provided and shall be payable by the applicant on or before a date to be fixed by the Corporation in this behalf ; and such date shall not be less than four years from the publication of the notification under section 6 of the Land Acquisition Act, 1894, nor shall such date be a date before that on which the scheme is declared by the Corporation to be completed in so far as it affects such land.

(*6*) Before the date so fixed, the person from whom the Corporation has arranged to accept the said fee, may, if the Corporation is satisfied that the security offered by him is sufficient, execute an agreement with the Corporation either—

(*i*) to leave the said fee outstanding as a charge on his interest in the land, subject to the payment in perpetuity of interest, at a rate not exceeding seven *per cent. per annum*, the said interest to run from the date fixed under sub-section (*5*), or

(*ii*) to pay the said fee by such number of equal yearly or half-yearly instalments of principal or of principal and interest as may be approved by the Corporation, interest in both cases being calculated at a rate not exceeding seven *per cent. per annum* on the amount outstanding.

(*7*) When the said fee has been paid on or before the date fixed under sub-section (*5*), or when an agreement has been executed in pursuance of sub-section (*6*) in respect of any land, the proceedings for the acquisition of the land shall be deemed to have been abandoned.

(*8*) If the said fee be not paid or an agreement in respect of the land be not executed in pursuance of sub-section (*6*) on or before the date fixed under sub-section (*5*), the Collector shall then proceed to acquire the land.

(*9*) If any sum payable under an agreement executed in pursuance of sub-section (*6*) be not paid on the date on which it is due, or on such later date as the Corporation may in its discretion fix in this behalf, so much of the fee fixed by the Corporation under sub-section (*3*) as is still unpaid, shall be payable on that date, in addition to the said sum.

(*10*) At any time after an agreement has been executed in pursuance of clause (*i*) of sub-section (*6*) any person may pay off the balance outstanding of the charge created thereby, with interest due, if any, at a rate not exceeding seven *per cent. per annum*, up to the date of such payment.

Recovery of money payable in pursuance of section 367.

368. When an agreement has been executed by any person in pursuance of section 367, sub-section (*6*), in respect of any land, and any money payable in pursuance of that section is not duly paid, the same shall be recoverable by the Corporation (together with interest up to the date of realization, at a rate not exceeding seven *per cent. per annum*), under the provisions of this Act ;

and, if not so recovered the Corporation may, after giving public notice of its intention to do so, and not less than one month after the publication of such notice, sell the interest of the said person or successor in such land by public auction, and may deduct the said money and the expenses of the sale from the proceeds of the sale, and shall pay the balance (if any) to the defaulter.

Agreement or payment under section 367 not to bar acquisition under a fresh declaration.

369. If any land in respect of which an agreement has been executed, or a payment has been accepted, as referred to in section 367, sub-section (*7*), be subsequently required for any of the purposes of this Act, the agreement or payment shall not be deemed to prevent the acquisition of the land in pursuance of a fresh declaration, published under section 6 of the Land Acquisition Act, 1894. I of 1894.

Private Streets.

Owner's obligation to make a street when disposing of land as building sites.

370. If the owner of any land utilizes, sells, leases or otherwise disposes of for profit such land or any portion or portions of the same as sites for the construction of buildings, he shall, save in such cases as the site or sites may abut on an existing public or private street, lay down and make a street or streets or road or roads giving access to the site or sites and connecting with an existing public or private street.

Making of new private streets.

371. (*1*) Any person intending to make or lay out a new private street shall send to the Corporation a written notice, with plans and sections showing the following particulars of the proposed street, namely :—

(*a*) the level, width and alignment thereof, and

(*b*) the arrangements to be made for levelling, paving, metalling, flagging, channelling, sewering, draining and lighting the street.

(*2*) The provisions of this Act as to the width of public streets and the height of buildings abutting thereon, and as to projected public streets, shall respectively apply in the case of streets referred to in sub-section (*1*) ; and all the particulars referred to in that sub-section shall be subject to approval by the Corporation :

Provided that the Corporation may allow a private street to be made or laid out of a width less than forty feet but not less than thirty feet.

The Calcutta Municipal Act, 1951.

(Part V.—Chapter XXI.—Streets and Public Places.—Sections 372—374.)

(*3*) Within ninety days after receipt of any notice under sub-section (*1*), the Corporation shall either sanction the making of the street, or disallow it, or ask for further information with respect to such street.

(*4*) Such sanction may be refused—

(*i*) if the proposed street would conflict with any arrangements which have been made, or which are in the opinion of the Corporation likely to be made within a reasonable period, for carrying out any general scheme of street improvement, or

(*ii*) if the proposed street does not conform to the provisions of this Act referred to in sub-section (*2*), or

(*iii*) if the proposed street is not designed so as to connect at one end with a street which is already open.

(*5*) If further information is asked for under sub-section (*3*), no steps shall be taken to make or lay out the street until orders have been passed upon receipt of such information, and such orders shall be passed within ninety days of the receipt of such further information.

(*6*) If within ninety days after the receipt of any notice under sub-section (*1*), or within ninety days after the receipt of any further information asked for under sub-section (*3*), the Corporation has not refused sanction to the making of the private street, it shall be deemed that sanction to the same has been granted.

389. The Corporation shall not refuse sanction to the erection of a boundary wall exceeding ten feet in height or to any addition to any boundary wall so as to make it exceed ten feet in height on the ground that such boundary wall or such addition would cause interference with an existing easement in favour of, or prevent the acquisition of an easement by, the owner of adjacent premises.

Bustees.

393. The Corporation may define the external limits of any *bustee*, and may from time to time alter such limits.

Power to Corporation to cause preparation of standard plan of *bustees.*

394. (*1*) The Corporation, if it considers that a *bustee* requires improvement for sanitary reasons, may, after giving notice to the owners of the *bustee*, cause the *bustee* to be inspected jointly by a Health Officer and an Engineer of the Corporation.

(*2*) The said officers shall forthwith make a written report to the Corporation on the sanitary condition of the *bustee* containing their recommendations for its improvement, and shall annex to their report a proper plan of the *bustee* to such scale as may be prescribed by the Corporation, showing—

(*a*) the manner in which the *bustee* should be laid out, with the huts standing in regular lines and with a free passage, in front of and behind each line, of such width as may be necessary for proper ventilation and for scavenging,

(*b*) the drains for the general use of the tenants of the *bustee*,

(*c*) the means of common water-supply, bathing arrangements and common privy accommodation to be provided for the use of the tenants,

(*d*) the streets and passages which are to be maintained for the benefit of the tenants, and the means of lighting of such streets and passages,

(*3*) The said report shall specify the huts or any masonry building or other structure in the *bustee* which may for the purposes of the improvement, be required to be removed or demolished partially or completely or to be altered or reconstructed ; and such huts or buildings or other similar structures shall be distinctly indicated on the plan.

(*4*) If there is any masonry building within the limits of the *bustee*, the said plan shall be so prepared as clearly to distinguish such building and the land pertaining to it.

(*5*) The streets referred to in clause (*d*) of sub-section (*2*) shall not be less than twelve feet wide and ordinarily not more than two hundred feet apart, and the passages referred to in that clause shall be not less than ten feet wide.

(*6*) A report together with the plan annexed thereto made and signed under this section by the persons appointed under sub-section (*1*) shall be sufficient evidence of the result of such inspection.

(*7*) When the Corporation causes a plan to be prepared under this section, it may charge the owners of the *bustee* for which the plan is prepared at a rate not exceeding five rupees per bigha.

Approval of standard plan by Corporation.

395. When a plan has been prepared under section 394, the Corporation shall fix a day for the hearing of objections, if any, made by or on behalf of the owners of the *bustee* and the owners of huts or masonry buildings or other structures therein ;

and after hearing such objections, may in its discretion approve such plan and adopt such report either with or without such modifications as it deems fit.

Every plan of a *bustee* so approved by the Corporation shall be called the standard plan of the *bustee*.

No new hut or masonry structure to be erected until approval of standard plan.

396. When a notice of inspection of a *bustee* has been given under section 394, no new hut or masonry structure shall be erected on the *bustee* and no existing building shall be added to within the *bustee* until a standard plan for the *bustee* has been approved under section 395.

The Calcutta Municipal Act, 1951.

(Part V.—Chapter XXIII.—Bustees.—*Sections 397—401.)*

397. When a standard plan for any *bustee* has been approved under section 395, no new hut or masonry building shall be erected on such *bustee* and no existing building shall be added to in such *bustee*, unless the building or the part of the building, as the case may be, occupies a site or part of a site marked in the standard plan as the site for a hut or for a masonry building :

Provided that no masonry building shall be erected unless it conforms to the rules made by the Corporation in this behalf with the approval of the State Government.

Power to Commissioner to require removal of hut not in conformity with standard plan.

398. (*1*) When a standard plan has been approved for any *bustee* under section 395, the Commissioner may at any time, by written notice require the owner of any building in such *bustee*, which is not in conformity with the standard plan or the adopted report, to demolish and remove the whole or any portion of such building, or to alter or reconstruct such building, as the case may be, so as to conform to the standard plan and the adopted report.

(*2*) When a building or part of a building has been removed in compliance with a requisition made under sub-section (*1*), the owner thereof shall be entitled to receive from the Municipal Fund such compensation calculated according to the estimated value of the building or part of the building removed, less the value of the materials, if the owner elects to take these, as the Corporation may determine.

Power to Commissioner to require carrying out of other improvement in conformity with standard plan.

399. (*1*) The Commissioner may at any time, by written notice, require the owners of any *bustee* and the owners of any buildings on such *bustee*, for which a standard plan has been approved under section 395, to carry out all or any of the improvements specified in the said standard plan and the adopted report, within such time as may be fixed in the notice.

(*2*) The owners of the *bustee* and of the buildings thereon shall carry out such works in compliance with the notice within the time fixed. Until such notice is complied with, the Commissioner may refuse to sanction the erection of a new building or the making of any addition to any building in the *bustee*.

Payment of expenses incurred in carrying out improvement.

400. When any improvements required by a notice under section 399 are carried out by the Corporation under section 560 all expenses incurred thereby including such reasonable compensation as the Corporation may think fit to pay to the owners or occupiers of buildings removed, shall be paid by the owners of the *bustee* and the owners of the buildings thereon to the Corporation in such proportion as may be determined by the Corporation ; and shall constitute a charge upon the land of such *bustee* and the buildings thereon ; if in any case compensation, as determined by the Corporation, is payable under this section to any owner of a building, such compensation shall be paid by the owner of the *bustee* :

Provided that, notwithstanding anything contained in section 564 if it appears to the Corporation that any owner of a building is unable by reason of poverty to pay such expenses or any portion thereof, the Corporation may order the same to be paid out of the Municipal Fund ; and in case of expenses payable under this section by an owner of a *bustee*, such payment shall be treated as an advance to such owner and shall constitute a charge upon such *bustee*.

Disposal by the Corporation of material of huts pulled down.

401. (*1*) If, in carrying out any improvement as provided in section 399, the Corporation causes any hut or portion of a hut to be pulled down, it shall—

(*b*) if the owner does not elect to take the materials, or if the owner be unknown or the title to the hut be disputed, cause such materials to be sold, and hold in deposit the proceeds of the sale, together with any sum awarded as compensation under section 400.

(*2*) Any amount held in deposit under clause (*b*) of sub-section (*1*) shall be so held by the Corporation until any person obtains an order from a competent Court for the payment to him of such amount.

(*3*) A Court of Small Causes shall be deemed to be a competent Court for the purposes of this section.

Power to Corporation to purchase or acquire masonry buildings or land in *bustees*.

402. The Corporation may, at any time after the receipt of a report made under section 394, purchase or acquire—

(*a*) any masonry building within such *bustee*, or

(*b*) any land appertaining to such building, or

(*c*) any such building, together with the land appertaining thereto or any portion thereof,

which is mentioned in that behalf in such report.

Alternative power to Corporation to make standard plan to purchase or acquire *bustee*, and to carry out improvement itself or through purchaser or lessee.

403. (*1*) Notwithstanding anything contained in sections 395 to 402, the Corporation may, after receipt of a report made under section 394 with respect to any *bustee*, and after giving an opportunity of being heard to the owners thereof, pass a resolution to the effect that the *bustee* is an unhealthy area and that, in its opinion, the purchase or acquisition of the *bustee* or of any portion thereof is necessary for the purpose of making the improvements referred to in the said report.

(*2*) When any such resolution has been passed, the Corporation shall make a plan for the improvement of the said *bustee* or portion thereof, together with such estimates as may be necessary for a due understanding of the same, and may then purchase or acquire the said *bustee* or portion thereof, and such plan shall be deemed to be the standard plan of the *bustee*.

(*3*) When any *bustee* or portion of a *bustee* has been so purchased or acquired, the Corporation shall as soon as is reasonably practicable, either—

(*a*) sell or let the same or part thereof to any person for the purpose and under the condition that he will, as respects the land so sold or leased to him, carry out the improvements shown in such standard plan, or

(*b*) itself bring the said *bustee* or portion thereof or any part of the same which has not been sold or leased under clause (*a*) into conformity with such standard plan, or

(*c*) proceed under the provisions of sections 518 to 520 to take measures for the erection of sanitary dwellings for the working classes, or for the poorer classes, or for both, on such land.

(*4*) Whenever the Corporation decides to sell or let under clause (*a*) of sub-section (*3*) any *bustee* or portion thereof so purchased or acquired from any person, it shall offer to the said person or his heirs, executors or administrators a prior right to purchase or take on lease such *bustee* when disposing of the same under the said clause if such person applies in this behalf, at such rate and on such terms and conditions as may be fixed by the Corporation, if the Corporation considers that such a right can be given without detriment to the carrying out of the purposes of this Act. If more than one person applies to the Corporation that a *bustee* or portion thereof be sold or let to him under the said clause, the Corporation shall determine which of such persons has the prior right to take such *bustee* under this sub-section.

(*5*) Whenever action is taken under clause (*a*) of sub-section (*3*), the provisions of sub-section (*2*) or sub-section (*3*) of section 520, as the case may be, shall be applicable.

Proportions of area of *bustee* to be shown in standard plan as streets, passages and open lands.

404. (*1*) No standard plan approved for a *bustee* under this Chapter shall, without the consent of the owner thereof, show more than—

(*a*) one-fourth of the whole area of such *bustee* as streets or passages, or

(*b*) one-third of such area as open lands not to be built upon, whether such open lands be common ground, streets, passages or spaces behind a line of huts.

(2) In calculating the said proportions of one-fourth and one-third of any such area, no tank situated therein that has not been filled up shall be taken into account.

Regulation of plots by standard plan, and compensation for adjustment of plots.

405. (1) When the land included in a *bustee* is owned by more owners than one, each owning one or more separate plots of such land, the standard plan approved under this Chapter for such *bustee* shall, as far as practicable, provide—

(*a*) for one or more huts being completely contained in each such plot, and

(*b*) for such portion of each such plot being taken for streets, passages and open land as is specified in section 404.

(2) If a greater proportion of any one such plot than the proportion specified in section 404 is so taken, such standard plan shall indicate—

(*i*) the compensation which shall be payable to the owner of such plot, and

(*ii*) the persons who are liable to pay such compensation by reason of their benefiting by such greater proportion having been taken.

(3) If no person can equitably be called upon to pay such compensation, the same shall be paid by the Corporation.

(4) Any compensation payable under this section to the owner of any land in a *bustee* shall not be paid until such land has been brought into complete conformity with the standard plan.

Streets and passages shown in standard plan, if not public streets, to remain private.

406. (1) Every street or passage in a *bustee* which is shown in the standard plan approved under this Chapter for that *bustee*, and which is not already a public street, shall unless the Corporation and the owners of the land on which such street or passage is situated otherwise consent as provided in section 375 be deemed to be a private street; and the portion thereof which falls on the land of each owner shall belong to such owner:

Provided that any portion of any such street or passage which is situated on land purchased or acquired by the Corporation under section 402 shall remain the property of the Corporation.

(2) Every such private street shall, at all times, be kept open for scavenging purposes and for all other purposes of this Act in such manner as the Corporation may require, and shall also be kept open for the use of all the tenants of the *bustee*:

Provided that, notwithstanding anything contained in the Indian Limitation Act, 1908, no use of any such street shall, by reason of any lapse of time, be held to confer a right of way on the public so as to bring the street within the definition of a "public street" in clause (*60*) of section 5. IX of 1908.

Bathing arrangements and privy accommodation in *bustee*, as shown in standard plan to be kept open for use of tenants.

407. The bathing arrangements and privy accommodation in a *bustee*, which are shown in the standard plan approved under this Chapter for such *bustee* as being common to the use of all or some of the tenants of the *bustee*, shall at all times be kept available for the use of such tenants:

Provided that, notwithstanding anything contained in the Indian Limitation Act, 1908, if at any time the land on which any such bathing arrangements or privy accommodation are provided ceases to form part of such *bustee*, no such use shall, by reason of any lapse of time, be held to confer any right on any person so as prejudicially to affect the rights of the owner of such land.

Owner of land in *bustee* to maintain certain conveniences on his land.

408. (1) The owner of any land in a *bustee*, for which a standard plan has been approved under this Chapter, shall maintain in proper order and repair, to the satisfaction of the Commissioner, such streets, passages, drains, common bathing arrangements, common privy accommodation, means of lighting, means of water-supply and other works on such land as may be shown in the plan.

(2) The Commissioner may, at any time, cause a written notice to be served upon such owner requiring him so to maintain such streets, passages, drains, common bathing arrangements, common privy accommodation, means of lighting, means of water-supply and other works:

(Part V.—Chapter XXIII.—Bustees—*Sections 409—412.)*

Provided that any convenience made by the owner of a hut for his own use shall, subject to such notice as aforesaid, be maintained by him and not by the owner of the *bustee*.

(*3*) If the Commissioner is satisfied that any street, passage, drain, bathing arrangements, privy accommodation, means of water-supply or other work or any portion thereof, has been damaged by any tenant or tenants of the *bustee*, the Commissioner may, if he thinks it desirable to do so, call upon such tenant or any one or more of such tenants by a written notice to repair such street, passage, drain, bathing arrangements, privy accommodation, means of water-supply or other work or portion thereof.

(*a*) all the streets, passages and common ground,

(*b*) all drains provided for the use of more than one hut, and

(*c*) the common bathing arrangements, common privies and means of lighting the *bustee*,

on such land, so far as the same are constructed in accordance with the standard plan.

(*2*) The owner of any hut in such *bustee* shall be deemed to be the occupier of—

(*i*) the land on which such hut stands,

(*ii*) the open space behind such hut which appertains thereto, and

(*iii*) every drain, privy, means of lighting or water-connection (if any) provided for the sole use of such hut.

410. When a *bustee* has been brought into conformity with the standard plan approved under this Chapter for such *bustee*, it shall be deemed to be a remodelled *bustee*.

Power to Corporation to prescribe alignments for *bustee* streets.

411.
